information on the subject of completing college financial applications it's reassuring to find a guide that students, parents, and even guidance counselors can look to for useful and accurate information. Carlos Adrian, Associate Director, Financial Aid Compliance Office of Financial Aid and Scholarship Programs, Syracuse University. As a long-time financial aid professional, I am always looking for helpful tools to assist families in understanding the sometimes overwhelming process of applying for student financial aid for college. Filing the FAFSA is a tool that successfully combines the presentation of detailed information with easy-to-follow flow charts and summary boxes to guide families through the application process. It is filled with helpful hints and is a valuable resource for families navigating the complicated world of financial aid. Diane Stemper, Executive Director, Office of Enrollment Services, Student Financial Aid, Ohio State University.

Verification Survey, National Association of Student Financial Aid Administrators (NASFAA), 2009. More than three in four college financial aid offices reported an increase in the number of cases where they must verify information on the Free Application for Federal Student Aid (FAFSA) according to the National Association of Student Financial Aid Administrators' (NASFAA's) latest Quick Scan Survey. The increase in the number of verification cases was likely to affect two-year colleges and low-income students. The increases in verification cases couldn't come at a worse time, NASFAA Interim President and CEO Joan Crissman said. Many financial aid offices are already stretched thin trying to handle record numbers of financial aid applications, awards, and appeals at the same time they are working to comply with a host of new requirements. In addition, the increase in verification means that more students have to overcome an additional hurdle to access student aid funds. Seventy-eight percent of the 729 financial aid offices that completed the survey between October 19 and October 23 reported an increase in the number of aid applicants selected for verification by the U.S. Department of Education in the 2009-10 award year compared to the previous year. Thirty-one percent reported an increase below 10 percent, while 22 percent reported an increase between 11-20 percent. Twelve percent reported an increase of more than 30 percent, and 17 percent reported no increase or a decrease. NASFAA conducted the survey after hearing anecdotal evidence that the numbers of students chosen for verification had been increasing for the last two years.
