Artificial Intelligence in Design '94 John S. Gero, Fay Sudweeks, 1994 Design is an important research topic in engineering and architecture since it is not only a means of change but also one of the keystones of economic competitiveness and the fundamental precursor to manufacturing However our understanding of design as a process and our ability to model it are still very limited The development of computational models founded on the artificial intelligence paradigm has provided an impetus for much of current design research both computational and cognitive Notwithstanding their immaturity noticeable advances have been made both in extending our understanding of design and in developing tools based on that understanding    *COMPINT 85* Institute of Electrical and Electronics Engineers, 1985    **AI ...** ,2001    Artificial Intelligence Programming Environments Robert Hawley, 1987 Robert Hawley is concerned both with Artificial Intelligence AI and the environments in which AI programming can operate successfully He explains and clarifies the detail of what is involved in AI programming and demonstrates how the tools of the AI trade can influence AI programming techniques
