*Algorithmic Life* Louise Amoore, Volha Piotukh, 2015-12-22 This book critically explores forms and techniques of calculation that emerge with digital computation and their implications The contributors demonstrate that digital calculative devices matter beyond their specific functions as they progressively shape transform and govern all areas of our life In particular it addresses such questions as How does the drive to make sense of and productively use large amounts of diverse data inform the development of new calculative devices logics and techniques How do these devices logics and techniques affect our capacity to decide and to act How do mundane elements of our physical and virtual existence become data to be analysed and rearranged in complex ensembles of people and things In what ways are conventional notions of public and private individual and population certainty and probability rule and exception transformed and what are the consequences How does the search for hidden connections and patterns change our understanding of social relations and associative life Do contemporary modes of calculation produce new thresholds of calculability and computability allowing for the improbable or the merely possible to be embraced and acted

upon As contemporary approaches to governing uncertain futures seek to anticipate future events how are calculation and decision engaged anew Drawing together different strands of cutting edge research that is both theoretically sophisticated and empirically rich this book makes an important contribution to several areas of scholarship including the emerging social science field of software studies and will be a vital resource for students and scholars alike *Media Selling* Charles Warner, William Lederer, Brian Moroz, 2020-07-17 The must have resource for media selling in today's technology driven environment The revised and updated fifth edition of *Media Selling* is an essential guide to our technology driven programmatic micro targeted mobile multi channel media ecosystem Today digital advertising has surpassed television as the number one ad investment platform and Google and Facebook dominate the digital advertising marketplace The authors highlight the new sales processes and approaches that will give media salespeople a leg up on the competition in our post Internet media era The book explores the automated programmatic buying and selling of digital ad inventory that is disrupting both media buyers and media salespeople In addition to information on disruptive technologies in media sales the book explores sales ethics communication theory and listening emotional intelligence creating value the principles of persuasion sales stage management guides and sample in person phone and email sales scripts *Media Selling* offers media sellers a customer first and problem solving sales approach The updated fifth edition Contains insight from digital experts into how 82.5% of digital ad inventory is bought and sold programmatically Reveals how to conduct research on Google Analytics Identifies how media salespeople can offer cross platform and multi channel solutions to prospects advertising and marketing challenge Includes insights into selling and distribution of podcasts Includes links to downloadable case studies presentations and planners on the *Media Selling* website Includes an extensive Glossary of Digital Advertising terms Written for students in communications radio TV and mass communication *Media Selling* is the classic work in the field The updated edition provides an indispensable tool for learning training and mastering sales techniques for digital media *The Routledge Handbook of Philosophy and Media Ethics* Carl Fox, Joe Saunders, 2023-11-13 The media informs entertains and connects us It is woven into the fabric of politics Its increasing immediacy has become an inescapable feature of almost everybody's life We are at the same time subject to the media and participants in it The ethical questions it raises have never been more urgent Trust is in short supply but we need to share information while dealing with problems like misinformation disinformation and echo chambers And what responsibilities fall on the state and on other actors such as artists advertisers and social media users as we reckon with endemic problems like racism sexism and classism *The Routledge Handbook of Philosophy and Media Ethics* is an outstanding survey and assessment of this vitally important field Comprising thirty chapters written by an international team of contributors the Handbook is divided into five parts Freedom of Speech Privacy and Censorship The News Media Broadening the Scope Giving Other Aspects of the Media their Due Justice Power and Representation Vice and Virtue Online *The Routledge Handbook of Philosophy and Media Ethics* is essential reading for

**Quoting on Facebook. An Attempt at a Categorisation for Quotations on Social Network Sites** Julian Botzenhardt, 2015-05-22 Seminar paper from the year 2014 in the subject English Language and Literature Studies Linguistics grade 1.0 University of Augsburg language English abstract According to Boyd and Ellison 2007 2 Social network sites are web based services that allow individuals to 1 construct a public or semi public profile within a bounded system 2 articulate a list of other users with whom they share a connection and 3 view and traverse their list of connections and those made by others within the system People use such services to represent their personality online thus facilitating communication with friends and also the maintenance of social ties Clearly the most successful and influential of those networks is Facebook Established in 2004 as an exclusive community for Harvard students it opened for the general public in 2006 and has since then gathered over 1 billion members all across the globe currently holding second place of the most visited websites worldwide Human communication has always been characterised by the recycling of language When people talk a great extent of the content of their discussion is devoted to what other people have already said In doing so speakers refer to utterances made by themselves or others inter alia by repetition and paraphrasing They do so simply to report other people's words but also to evaluate what has been said Quoting has also found its way to communication media online due to the technical properties of computer supported environments facilitating the act of accurately reproducing a previously made statement Characteristically Facebook employs mechanisms of automated text creation and distribution to support the users in making quotations These mechanisms though can be very complex and impenetrable This is why I strive to provide insight into the process of quoting on Facebook in this paper To do so I will provide insight into the basics of the scientific field of computer mediated communication as well as the

structural principle of hypertexts in online environments Following that I am going to employ a newly shaped definition of the act of quoting by Bublitz in an examination of the most common text actions on the social network site Facebook Thereby I plan to come up with a framework of quotations on Facebook in both user created and software created texts
