Dear Hiring Manager,

I am writing to express my interest in the Software Engineer Intern position at Netflix. As a highly skilled and motivated Computer Science student with a passion for coding and data engineering, I am excited about the opportunity to contribute my skills and learn from the innovative team at Netflix.

What particularly drew me to this position is Netflix's reputation for being at the forefront of technology and constantly pushing the boundaries in the entertainment industry. As a regular user of Netflix, I have always been impressed by its user-friendly interface, personalized recommendations, and seamless streaming experience. I admire how Netflix has leveraged technology to disrupt the traditional entertainment industry and become a global leader in the streaming market.

As a Software Engineer Intern, I am confident that I can make a valuable contribution to Netflix's mission of providing high-quality entertainment to its audience. With my strong background in C#, Java, and Python, I have developed a solid foundation in object-oriented programming, data structures, and algorithms. I have also completed a number of projects in these languages, including a data analysis tool using Python and a web application using C# for my university's coding club. These experiences have honed my coding skills and taught me how to work effectively in a team setting.

In addition to my technical skills, I am also well-versed in data engineering. I have taken courses in database management and data mining, and I am proficient in SQL. I have also completed a project where I built a data warehouse for a local startup, which involved designing the database schema, writing SQL queries, and creating ETL processes. This project has not only enhanced my skills in data engineering, but also taught me the importance of data-driven decision making. [lacysoppy.com](https://www.lacysoppy.com)
