

## Reading Comprehension Guide for the ACCUPLACER

Six skills prepare students to become better readers and for college-level courses:

- recognizing main ideas
- identifying supporting details
- recognizing implied main ideas and the central point
- understanding relationships that involve addition and time
- understanding relationships that involve illustration, comparison or contrast, and cause and effect
- understanding tone

### MAIN IDEA

In order to become a better and faster reader, recognizing the main idea is the most important skill you can develop.

Think of the **main idea** as an “umbrella” idea. It is the author’s primary point about a topic. All other material in the paragraph fits under the main idea. In a paragraph, authors often present the main idea to readers in a single sentence called the **topic sentence**.

Consider this example:

TV violence does affect people in negative ways. Frequent TV watchers are more fearful and suspicious of others. Heavy TV watchers are less upset about real-life violence than non-TV watchers. TV violence increases aggressive behavior in children.

You will see the word **topic** used in two different ways. First, **topic** can be used generally to mean the subject of the reading. Second, it can be used as a part of the phrase, **topic sentence**. In this example, the first sentence tells the reader the general subject or, **topic**, of the passage. The second sentence is the **topic sentence**, and in this case also gives the author’s main idea. This sentence tells the reader what the passage is about and gives the main point the author is making.

### SUPPORTING DETAILS

Supporting details are reasons, examples, steps, or other kinds of factual evidence that explain a main idea.

Consider this example:

Main idea: Our government should phase out the penny in the economy.
