Broadcasting & Cable ,2007-10

Legal Issues in Professional Baseball Lewis Samuel Kurlantzick,2005 The volume will be the second in an ongoing project on the legal regulation of athletics It will consist of a set of essays on a variety of legal issues facing professional basketball The contributors are a distinguished group of academics and practitioners who have long focused their intellectual efforts on the legal governance of professional and amateur athletics And this is a much needed addition to the law literature both in the United States as well as internationally Basketball now rivals soccer in worldwide popularity Accordingly one chapter will attend to the international dimension of the sport A principal focus will be the present restrictions on the free flow of labor and capital Thus leagues abroad commonly place a limit on the number of foreign players i e Americans who can be on a team roster Comparable limitations are placed on foreign ownership of teams In addition the National Basketball Association NBA has an agreement with FIBA the international governing body for basketball that regulates movement of players across continents The legality of these arrangements will be evaluated While attention will be paid to the law of the European Union the principal assessment will be under United States antitrust law That assessment also raises the important issue of the reach of American law with respect to international transactions The globalization of the sport has been aided by the development of the internet which has affected the manner in which games and information about games are disseminated Not surprisingly issues about the control of cybermarket opportunities as between leagues and teams have come to the fore The law both facilitates and limits these developments in light of the public interest in access to information A full chapter will explore these internet related issues Employer employee relations and in particular disciplinary arrangements have a distinctive cast in the NBA as compared with more conventional industries That uniqueness flows from the lack of the typical market constraint on management discipline Imagine an insurance industry executive For him market forces tend to limit the potential for abusive treatment by his employer and provide him with other employment options if he is maltreated This market constraint does not operate in professional basketball because a Commissioner suspension amounts to a ban on hiring by all employers in the industry A chapter will present a critique of the disciplinary arrangements that have evolved in

the NBA The location and relocation of franchises are matters of central importance for teams league and municipalities The league s ability to artificially limit the number of franchises below the market clearing number provides teams with major leverage over communities anxious to keep or acquire a professional franchise The manner in which a municipality might constrain exercise of this market power is a matter of enduring social importance One chapter will analyze leasing arrangements as one response Another chapter will explore the dynamics of team municipality negotiations Both will use the move of the Seattle Supersonics to Oklahoma City as a starting point Among the four major sports in the United States basketball alone supports a professional women s league A chapter will examine the history organizational structure and distinctive problems of the WNBA This chapter may provide a vehicle for exploration of societally related gender and discrimination issues as well Contributors Ira Finkelstein a graduate of Harvard Law School has had very extensive experience in sports litigation Some of that litigation experience has involved disputes with the NBA He is a member of the Committee on Sports Law of the Association of the Bar of the City of New York Russ VerSteeg graduated Phi Beta Kappa from the University of North Carolina at Chapel Hill and magna cum laude from the University of Connecticut School of Law He has taught at New England Law School since 1991 and specializes in Sports Law Copyright Trademarks and Legal History He has published four books and over twenty five law review articles His most recent book is Sports Law Cases and Materials Jacquelyn Bridgeman is on the faculty of the University of Wyoming s College of Law She received her undergraduate degree from Stanford University and her law degree from the University of Chicago Her scholarship has been concentrated in the areas of discrimination and race issues

benchmarking and potential of heat pumps for flue gas condensation - Aug 09 2022

web 1 analyzes flue gas condensation in industrial applications heat pumps are mentioned as feasible but costly option for recovery of latent heat at higher return temperatures and investment decision of conventional condensing technology is said to be case dependent

emission reduction of condensable particulate matter in - Mar 04 2022

web oct 1 2021 flue gas temperature drop is key influence factor and optimum value is 4 6 c abstract with ultra low emissions being implemented in china the proportion of condensable particulate matter cpm increased gradually in total particulate matter tpm

[flue gas condensation wikipedia](#) - Aug 21 2023

web flue gas condensation is a process where flue gas is cooled below its water dew point and the heat released by the resulting condensation of water is recovered as low temperature heat cooling of the flue gas can be performed either directly with a heat exchanger or indirectly via a condensing scrubber

flue gas condensation for energy recovery babcock wilcox - Jul 20 2023

web by cooling the flue gas to below its dew point it is possible to recover large quantities of latent heat if the flue gas temperature after the boiler is approximately 150°C it is possible by means of flue gas condensation to increase the energy efficiency by an additional 20

performances of gas water direct contact heat transfer springer - Feb 03 2022

web cooled below dew point and water vapor in the flue gas releases condensation heat which has achieved the purpose of recovering waste heat and condensed water direct contact heat exchangers are generally combined with absorption heat pumps

synergistic removal of particles so₂ and no₂ in desulfurized flue gas - Apr 05 2022

web jan 28 2021 the condensation of desulfurized flue gas using heat exchangers can not only recover condensed water and latent heat but also create supersaturated environment to promote the flue gas purification in this study an experimental system for desulfurized flue gas condensation is established

condensation heat transfer characteristics of flue gas moisture - Jun 19 2023

web aug 15 2023 the results show that capillary condensation is more pronounced in high temperature flue gas which improves heat transfer efficiency and results in a higher wall temperature rise at the flue gas outlet

wet stack analysis of condensation - Jan 14 2023

web condensation on the liner wall due to temperature and concentration gradients adiabatic condensation droplets which passed through the eliminator after fgd the condensation layer especially on the wall of the stack may be pulled back into the flue gas stream this corresponding author Ondrej Bartos fs cvut cz

flue gases dew point temperatures the engineering toolbox - Jan 02 2022
