**Choices of the AI Act** Tomasz Braun, Dominika Ewa Harasimiuk, 2025-12-03. This book investigates the complex ethical dilemmas underpinning AI regulation, analysing the EU Artificial Intelligence Act in the context of the fundamental values and ambitious expectations that have accompanied it initially. This book posits a pioneering regulatory framework to ensure the ethical development and equitable deployment of AI technologies for societal benefit. The expanding integration of AI and its deepening interaction with humans raise profound ethical dilemmas. As legislators endeavour to address these rapid developments and ensure AI serves the public good and does not cause harm, this book discusses the ethical complexities which pose a significant challenge for the EU and beyond. The book posits the discussion on AI regulation in a broader global background and refers to human agency, trustworthiness, risk classifications, the attribution of liability for deficiencies arising from its improper implementation, and other problems that the AI-based systems may cause. Additionally, it seeks to familiarise the reader with the AI Act and critically expands on the burdens the new law may impose on subjects. This book will be of interest to researchers, policymakers, students, and practitioners with an interest in the legal and ethical dimensions of technology, law, governance, EU law, and artificial intelligence. The Open Access version of this book is available at <http://www.taylorfrancis.com>. It has been made available under a Creative Commons Attribution Non-Commercial No Derivatives (CC BY-NC-ND 4.0) license. The Advanced Practitioner in Mental Health Clare Allabyrne, 2026-03-17.
