Cartomancy Julian Moore, 2012-09-21 Get this book learn the system do cool readings David Numen Julian s work is the best of the bunch in these genres I have scoured book stores I only learn from his books and ideas John Cesta My latest ebook which teaches the fundamentals of cartomancy is now ready for release It s similar to my other books in that it s aimed at complete beginners as well as people who ve started learning this particular reading discipline but then given up for one reason or another Like my other books I use a no nonsense approach with lots of memory tips insights reviews and exercises over ninety pages to help you get up to speed as quickly as possible and the whole experience is extremely hands on In fact part of the process involves scribbling on the cards a lot to make sure the basics are implanted in your mind as you go I m really hoping that this new book gets some of you on the road to giving proper and interesting readings with cards instead of just thinking about it There s a lot more information hidden in those fifty two bits of paper than you probably realise

REVIEWS I got this yesterday and have started the study and have to say it s quite brilliant I ve read cards of one form or another for 20 years after learning initially from the Joe Riding course but for various reasons I was looking for something to help me sharpen my skills and this more than does the trick For anyone who might feel that they d rather this was on tarot I think it s worth pointing out that when I started doing readings many moons ago a number of clients would tell me of this mystical sounding old man who read from ordinary cards It was clear that the impression given to these women was that reading ordinary cards was somehow more skillful and impressive than tarot cards I guess the pictures on the cards might make it obvious to some

astute clients that there are highly visible cues on the cards Playing card readings rock and playing cards predate tarot and are thus in my book purer and more mysterious than tarot David Numen I purchased this ebook What a great system Always in the easily understood clear writing format you d expect from Julian This is of a quality you would expect to find in a book store I have in the past purchased Julian s James Bond Cold Reading book and his Palm Reading book For me this is one of the best I find I am more in tune with numbers than the others I always have a deck of cards and certainly the places I frequent there are cards as well The fact that you can use a few cards a few more to create a simple or more complex reading is terrific Make it as long or short as you d like Julian s audio book available for free from his site is also top notch Lots of valuable audio files to use while driving or sitting in a Doctor s office Certainly worth the asking price If you have any of Julian s other offerings you know what I mean If you don t have any of Julian s other offerings don t hesitate His metaphors and memory links make sense and they work John Cesta OTHER KINDLE BOOKS IN THE SPEED LEARNING SERIES BY JULIAN MOORE Speed Learning Graphology The Art Of Handwriting Analysis Speed Learning The James Bond Cold Reading Speed Learning Palmistry Palm Readings In Your Own Words
