Architecting Strategic Business Transformation Through Data-Driven Systems Sedky, Ahmed, 2026-02-26 Sustainable business transformations are challenging in today's complex organizational environments. Rapid technological change defines current business practices, increasing global competition, changing product and service management, and shifting customer demands. Business excellence has become foundational with data-driven systems enabling organizational relevance, competition, and resilience through predictive analytics and improved project management tactics. Further exploration may reveal how business information systems paired with effective leadership can support sustainable business endeavors and future-focused planning. *Architecting Strategic Business Transformation Through Data-Driven Systems* explores how business data management systems impact organizational strategic planning and long-term sustainability. It examines the role of data-driven systems in driving business functions and improving procurement, supply chain operations, and customer service strategies. This book covers topics such as business strategy, data governance, and predictive analytics and is a useful resource for business owners, academicians, researchers, and data scientists.

AI Strategy for Business Leaders: From Core Concepts to Generative AI, Agentic AI, Ethics, and Strategic Implementation Ken Kwong-Kay Wong, 2026-03-16 *AI Strategy for Business Leaders: From Core Concepts to Generative AI, Agentic AI, Ethics, and Strategic Implementation* provides a timely and practical guide for executives and decision makers navigating the rapidly evolving landscape of artificial intelligence. In this book, Ken Wong demystifies the complexities of AI and presents its concepts in a clear, accessible way for leaders who may not have a technical background. Through practical explanations and step-by-step strategies, the book helps organizations understand how AI can be integrated into business processes while addressing critical issues such as ethical responsibility, potential workforce impacts, and the broader socio-economic implications of intelligent technologies. Going beyond theoretical discussion, the book explores the transformative role of emerging technologies such as Generative AI and the rapidly developing field of Agentic AI systems capable of planning, making decisions, and taking actions with minimal human intervention. Drawing on real-world examples and practical insights, Wong shows how AI already shapes everyday life and business operations, from personalized recommendations to intelligent automation. Designed especially for leaders seeking clarity in a rapidly changing technological environment, this book offers both a strategic roadmap and a practical compass for organizations aiming to adapt, innovate, and thrive responsibly in the age of artificial intelligence.
