Embracing Uncertainty Susan Jeffers, 2003 Susan Jeffers' wisdom feels like a precious gift. Her counsel is profound and meaningful in such challenging times. MARIANNE WILLIAMSON: Original, courageous, and brilliant. WARREN FARRELL: Nobody knows what will happen in the next moment of our lives. Whatever is in store for us, the only thing we CAN be sure of is that nothing in life is certain. And since we all fear the unknown, life's uncertainty can be a constant source of worry to us. But as bestselling author Susan Jeffers explains, life doesn't have to be one worry after the next; a steady stream of "what ifs" and a constant attempt to create a secure haven for ourselves. In *EMBRACING UNCERTAINTY*, she emphasizes that an unknown future doesn't prevent a rich and abundant life, and shows how by enjoying life's unpredictability, we transform ourselves from a position of fear to one filled with excitement and potential. Through invaluable case studies, exercises, and her pragmatic wisdom, Susan convinces us, above all, that life is exhilarating because of, not in spite of, the uncertainty.

Proceedings of the National

Conference on Computing for Nation Development ,2007 Every Move You Make Nikki Winston,2003 We've long known that changing mental or emotional focus can help change physical state. Think of doctors prescribing stress management to patients at risk for heart attack or consider athletes who visualize performances in order to make it happen. It's mind over matter and it's something we readily accept. Less well explored is the fact that the body-mind link is reciprocal. Change your physical state and you can change your mental or emotional focus. Change the way you move in deliberate, carefully prescribed ways, repattern your body and you can repattern your mind, emotions, and spirit in ways that let you live the life you know you can live, the life you've always wanted to live. Every Move You Make gives readers the practical tools for making these changes. Each chapter addresses a different aspect of life that may need modification: self-image, relationships, sexuality, career, creativity, stress, and anxieties and compulsions. The chapter then presents the author's proprietary four-action process for repatterning body movements to fix the problem. The process includes a specific sequence of movement exercises based on Taiji, Qigong, and Shintaido and illustrated in photographs, plus complementary practices for intention, visualization, and vocal affirmation.
