Rosa Mikels,2006-06 *Selected Short Stories* Arthur M Jensen,2019-06-27 English by the Nature Method Arthur M Jensen Selected Short Stories The purpose behind the present collection of short stories is a double one Firstly it has been my intention to give to those who have gone through the main part of English by the Nature Method a chance to continue their studies in an easy and natural way by simply reading stories written in a language that they already command Thus at the beginning of this book the stories make use only of the 2300 words contained in English by the Nature Method By degrees new words are introduced and these are explained by the help of the same 2300 words plus such new words as may have been taken into use in the stories already given In this way the pupil s knowledge of words is increased little by little until at the end of the book it includes 3700 words in all carefully chosen among those most frequently used in the English language In the second place I have had in mind to try to be of help to those who may in other ways have reached a certain amount of knowledge of English but who feel that they cannot directly gain an entrance into the world of English writers without spending too much time and labour The specially prepared short stories of this book make up a convenient bridge leading the reader by easy steps from the usual school knowledge of English to an understanding of the language normally used by English writers Arthur M Jensen **A Treasure of Short Stories for English Language Learners** Suhair Eyad Jamal Al-Alami,2020-09-30 This book includes thirteen short stories chosen to illustrate various modes of narration and to provoke reflection on a range of issues The texts illustrate how great writers can with their insight and gift for words help us to see the world in which we live in new probing and exciting ways Upon the completion of this book learners will be able to read to find and handle information for a range of purposes as well as read to enjoy and respond to a variety of texts The book will also equip the reader to write for a range of purposes conveying meaning in language appropriate to purpose and audience and communicate effectively with native and non native speakers of English manipulating language as appropriate What characterises this book is its integration of literary competence communicative competence and critical thinking skills This combined input incorporates the receptive skills of listening and reading and the productive skills of speaking and writing **Modern English Short Stories** Phyllis M.
