*TV Drama in the Multiplatform Era* Trisha Dunleavy, Elke Weissmann, 2024-01-16 This edited collection examines a new phase in the creation of transnational high end drama in television's current multiplatform era. Fuelled by the wider international exposure that internet distribution has brought to TV shows, this phase for high end drama is one of unprecedented budgets and costs, frequent transnational coproduction and increased cultural diversification. While this drama continues to be facilitated by national broadcasters fuelling the above trio of influences upon it, it has been the commissioning activity of multinational subscription video on demand (SVoD) providers. This book showcases leading examples of transnational TV drama produced outside the US yet involving collaboration with US owned SVoDs. It foregrounds some new potentials for drama creation in the context of its strategic importance to providers as different as national broadcasters and multinational SVoDs. This book helps to explain why today's high end dramas are demonstrating new elements of cultural specificity despite their common objective to engage a diverse international audience. *Ebook: Managerial Accounting*
