The Arts and Computational Culture: Real and Virtual Worlds Tula Giannini, Jonathan P. Bowen, 2024-06-27 A Paradigm Shift and Defining Moment in the 21st Century Fuelled by the convergence of computational culture artificial intelligence and machine learning arts and culture are experiencing a revolutionary moment poised to change human life and society on a global scale There is the promise of the Metaverse with extended reality XR and immersive virtual worlds For the first time reality and virtuality are merging with these new developments The proposed book is among the first to address the context complexity and impact of this multi faceted subject in detail for up close and personal engagement of the reader while evoking a landscape view As digital culture evolves to computational culture we embark on a digital journey from 2D to 3D where flat computer screens for the Internet and smart phones are evolving into immersive digital environments This is while new technologies and AI are increasingly embedded in every aspect of daily life the arts and education [c't Working with AI](#) c't-Redaktion, 2024-01-24 The special issue of c t KI Praxis provides tests and practical instructions for working with chatbots It explains why language models make mistakes and how they can be minimised This not only helps when you send questions and orders to one of the chatbots offered online If you do not want to or are not allowed to use the cloud services for data protection reasons for example you can also set up your own voice AI The c t editorial team explains where to find a suitable voice model how to host it locally and which service providers can host it The fact that generative AI is becoming increasingly productive harbours both opportunities and risks Suitable rules for the use of AI in schools training and at work help to exploit opportunities and minimise risks **Amateurs!** Joanna Walsh, 2025-09-23 Since the nineties platforms have invited users to create in return for connection From blogs to vlogs tweets to memes for the first time in history making art became the fundamental form of communication What started as fun soon became currency something vital to finding friends work and love Then as meatspace job security eroded online creativity became work itself Now an internet presence is no longer optional platforms increasingly charge users Whatever it is we re creating online it isn t amateur anymore But is it art In this scintillating philosophical history of the internet Joanna Walsh author of *Girl Online* examines how and why creativity became the price of digital existence *The Rise of A.I. Propaganda* Conrad Riker, This book dives deep into the history of propaganda and fake news exploring how advancements in artificial intelligence have led to the creation of deep fakes It highlights the accessibility of A I powered tools for personalized propaganda like voice cloning transcription and generation of text to text text to image and text to video The book is targeted towards rational red pillers who seek to understand the implications of these technologies on society and our perception of reality **Cyberethics 8e** Richard A. Spinello, 2025-12-31 **Every Monument Will Fall** Dan Hicks, 2025-05-01 An extraordinary intervention If you want to understand the stakes and the limitations of contemporary conflict over culture and colonial history this bold provocative book is an indispensable resource Paul Gilroy founding Director of the Sarah Parker Remond Centre for the Study of Race

and Racism at UCL Hicks must read book describes how it was possible for a human skull to be made into a drinking cup and used in a genteel Oxford college well into the 21st century as if empire were an eternal state of nature Read it to learn new ways to be anti racist abolitionist and to tell other stories than those commemorated by the monuments that surround us from statues to museums and the police Nicholas Mirzoeff author of *White Sight* Brave and clear sighted Hicks opens up an extraordinary conversation between the past and the present This is a book about falling statues but so much more It s about how we ve been lied to and how we can approach the past with honesty Hicks asks whether history and archaeology should be used to justify actions we know impinge on the rights of others or to understand ourselves better Alice Roberts bestselling author of *Crypt* Dan Hicks writes with grace and fierce focus about what we choose to remember and why in our patterns of thought our institutions and the built environment in which we live Eyal Weizman director of Forensic Architecture *The culture war is over* If you want it to be It wasn t even a culture war it was a war on culture A sustained attack Dan Hicks argues in the form of the weaponisation of civic museums public art and even universities and one that has a deeper history than you might think *Tracing the origins of contemporary conflicts over art heritage memory and colonialism* Every Monument Will Fall joins the dots between the building of statues the founding of academic disciplines like archaeology and anthropology and the warehousing of stolen art and human skulls in museums including the one in which he is a curator Part history part biography part excavation the story runs from the Yorkshire wolds to the Crimean War from southern Ireland to the frontline of the American Civil War from the City of London to the University of Oxford revealing enduring legacies of militarism slavery racism and white supremacy hardwired into the heart of our cultural institutions Every Monument Will Fall offers an urgent reappraisal of how we think about culture and how to find hope remembrance and reconciliation in the fragments of an unfinished violent past Refusing to choose between pulling down every statue or living in a past that we can never change the book makes the case for allowing monuments to fall once in a while even those that are hard to see as monuments rebuilding a memory culture that is in step with our times
