Debt Free Twice Shane Larson, 2026-03-21

Most debt books end with a victory lap. This one tells the truth. In fall 2018, software engineer Shane Larson's marriage ended, and he discovered he was carrying 122,000 in consumer debt: a truck loan, student loans, credit cards, a furniture loan, a HELOC, and a personal loan. On paper, he looked middle class. In reality, he was broke. Using the debt snowball method, voluntary hardship, and a strategic refinance of his rental property, he eliminated every dollar of consumer debt in two years. Then he spent four years pouring 4,000 a month into investments and watching his net worth climb past one million dollars. Then in 2025, life happened. He got married, bought a car, bought more land, and woke up with 26,000 in new consumer debt. This is the book that admits what other debt books won't: getting out of debt is not a one-time achievement. It's a skill you practice for life. What you'll find inside: The exact debt balances, interest rates, and monthly payments, every number, no vague estimates. Why the debt snowball beat the mathematically correct avalanche method. How voluntary hardship became a source of strength, not suffering. The boring four-year autopilot phase that built real wealth. How a millionaire ends up carrying credit card debt at 21% interest. The system and the AI tool that catches the cycle before it restarts. This book is for you if: You earn good money but somehow never have anything left. You've been in debt, gotten out, and found your way back. You're tired of being lectured by people who got rich selling books about

getting rich You want real numbers from a real person not motivational platitudes You need a system that accounts for the fact that life keeps happening No wilderness metaphors No guru wisdom Just one engineer s honest story about money the wins the mistakes and the practice of staying free
