Automation MRR appears to refer to a concept or a business model related to generating Monthly Recurring Revenue MRR through automated YouTube content creation or management without revealing the creator's identity or showing their face on the platform. This could involve various strategies such as Automated Content Creation Using software or algorithms to generate and upload videos automatically based on certain criteria like trending topics, keywords, or specific niches; Content Curation Curating existing videos from other creators or sources and compiling them into thematic playlists or channels; Monetization Strategies Implementing various monetization methods such as ads, sponsorships, affiliate marketing, or selling digital products/services related to the content niche; SEO and Marketing Automation Leveraging automation tools for search engine optimization, SEO, social media marketing, and audience engagement to drive traffic and increase visibility; Outsourcing and Delegation Hiring freelancers or virtual assistants to handle different aspects of content creation, management, and promotion. The term "faceless" suggests that the creator prefers to remain anonymous or undisclosed, possibly to avoid personal branding or to maintain privacy. This approach allows focusing solely on the content and its profitability without associating it with a specific individual. MRR or Monthly Recurring Revenue is a key metric for subscription-based businesses, indicating the predictable revenue generated from subscriptions or recurring payments on a monthly basis. In the context of YouTube, it could refer to the consistent revenue generated from ad monetization, memberships, or other recurring sources. Combining automation with YouTube content creation can streamline processes, scale operations, and potentially generate passive income over time. However, it's essential to adhere to YouTube's policies and guidelines to ensure compliance and avoid penalties such as demonetization or account suspension. **PC AI**, 1991

Social Media 2.0 : Powered by Artificial Intelligence (Preparing Future Media Professionals for an AI-Integrated World) Prof. P. Sasikala, Benny Mathur, 2025-11-13. **Social Media 2.0 Powered by Artificial Intelligence: Preparing Future Media Professionals for an AI-Integrated World** is a comprehensive guide designed for students, educators, and emerging professionals in the field of New Media Studies. In an era where social platforms are not just communication tools but intelligent ecosystems, this book explores how Artificial Intelligence is reshaping the way we create, share, consume, and interpret content online. From AI-powered content generation and recommendation systems to data analytics, automation, and ethical implications, the book covers it all in a manner that is both academically grounded and practically applicable. Divided into three core sections, the first part lays the foundation by examining social media's evolution, platform dynamics, content planning, and branding. The second part dives into the transformative role of AI, showcasing how machine intelligence is integrated into social platforms, from chatbots and sentiment analysis to virtual influencers and personalized feeds. The third part is focused on the topic of social media for public relations and how public relations agencies can leverage the power of social media. Developed with a special focus on the Indian digital landscape, this text bridges global trends with local relevance. Each chapter is enriched with case studies, key concepts, real-world examples, and reflective questions to encourage

critical thinking and hands on learning Whether you re a student beginning your journey in digital media or a teacher seeking structured content for your classroom this book offers a future facing framework to navigate and lead in a media environment increasingly shaped by AI
