

### **SMALL BUSINESS CASE STUDY**

Equity Technologies Corporation knows what it means to be prepared. Located in Mobile, Alabama, the company has long had plans and procedures in place to counter the threat posed by hurricanes and other severe weather. For instance, Equity Technologies promotes family and individual preparedness and has set up a means of communicating with employees when dangerous weather threatens. Employees carry laminated cards with contact information for supervisors and a voice recorded call-in number with updates about the company's status.

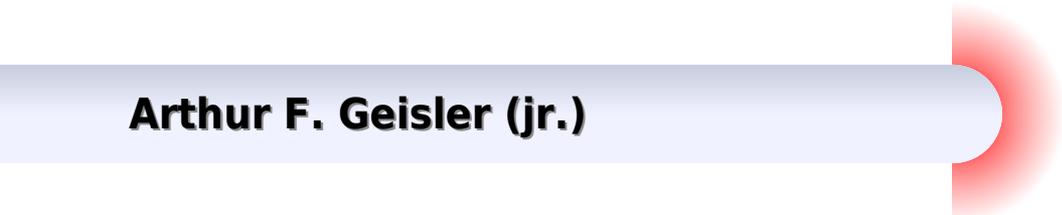

But it was the risk of Y2K related disturbances that motivated Equity Technologies to get serious about its disaster preparedness and business continuity plans. "We are a small company which does business around the world. To be competitive my clients must feel confident that we are ready for anything," said Equity Technologies Corporation's President and CEO Cathy Anderson-Giles. "It wasn't hard to put together a plan, you just have to make it a priority."

First the company identified workers to serve as key contacts for the 72-employee operation. These key contacts then established safety and security teams which analyzed Equity Technologies Corporation's entire emergency process.

The teams realized that communication between the company and the outside world was the single most important operational factor in an emergency. As a result, Equity Technologies purchased generators to power the phone system during utility outages and trained co-workers to set them up within seven minutes. Not only does the company have emergency plans and procedures in place, it has made a commitment to review the plans and tools each year at the start of the hurricane season. "We have the annual review on our corporate calendar," said Anderson-Giles. "Being prepared means being ready for any kind of emergency, be it hurricane, utility disruption or man-made disaster."

thankfully never had to deal with the Mob being held up at gunpoint or having our beer and equipment ripped off we definitely identified with the challenges faced in those early days of cobbling a brewery together The revealing story Steve and Tom tell about two partners entering a business out of passion in an industry they knew little about being seriously undercapitalized with an overly naive business plan and their ultimate success is an inspiring tale Ken Grossman founder Sierra Nevada Brewing Co *Forecasting Sales at Ska Brewing Company* Matthew Drake,2014 This new business analytics case study challenges readers to project trends and plan capacity for a fast growing craft beer operation so it can make the best possible decisions about expensive investments in brewing capacity Crystallizing realistic analytical challenges faced by companies in many industries and markets it exposes readers to the entire decision making process providing opportunities to perform analyses interpret output and recommend the best course of action Author Eric Huggins Fort Lewis College

**Narragansett Brewing Company** Matthew J. Drake,2014-01-16 Using formal facility location methods this new business analytics case study challenges readers to compare three potential locations for Narragansett Brewery's new keg only brewing facility in Rhode Island and identify the best alternative Crystallizing realistic analytical challenges faced by companies in many industries and markets it exposes readers to the entire decision making process providing opportunities to perform analyses interpret output and recommend the optimal course of action Author John K Visich Christopher J Roethlein and Angela M Wicks Bryant University Mikkeller Justin OBrien,Nadine Waehning,2018 Mikkeller is a renowned Danish gypsy craft brewing business that was born global Its inspiring portfolio of beers blended using exotic ingredients and unusual processes are much sought after by craft beer geeks Founder Mikkel Bjergs used an international partnership strategy to build a highly creative beer brand that is outstandingly innovative but decided not to invest in his own brewing facilities or sell beer in his home market favouring an international first manufacturing and marketing strategy This marketing strategy case encourages students to evaluate business model selection entrepreneurial marketing and international market entry strategies Working Towards a Zero Waste Brewery Joan Giuliani,2008 South African Breweries SAB Miller plc is working to become a more sustainable corporation with a goal of achieving zero waste breweries Because there is limited research on zero waste breweries in the United States and even the world the purpose of this report is to explore what is required to work towards operation of a zero waste brewery **The True Value of a Sustainable Business Model** Benjamin Allen Belk,2017 **BrewDog** Robert Smith,Susan Moulton,Phil Burge,Andrew Turnbull,2010 This case study tells an atypical entrepreneurship story about two men and a dog It explores the rapid growth of the phenomenon that is BrewDog plc a company situated in the remote north east of Scotland What makes this case special is that the business set up in 2007 by two university graduates in their early twenties with limited experience of the brewing industry is now trading as a plc From the outset they deliberately chose a strategy that flew in the face of accepted orthodoxy in the brewing industry To industry experts it made little sense because the remote Aberdeenshire town of Fraserburgh with its

peripheral location would surely be the last place any rational individual would seek to start a new brewery The story of how James Watt and Martin Dickie did so is uplifting and inspirational *Anheuser Busch Case Study*, 2006 **A Case Study of Labor and Management Cooperation** Harry Graham, 1964 **Brewery Costing Systems** Declan P. Grennan, 1989

**Pabst Brewing Company** Thomas Childs Cochran, 2006-09 In 1948 Thomas Childs Cochran Professor of History at New York University completed what is perhaps the most in depth historical study of an American brewery ever undertaken The result was *The Pabst Brewing Company The History of an American Business* To make this valuable work available to contemporary historians and beer enthusiasts BeerBooks.com has reprinted Cochran's book from a 1948 first edition An added feature to this digitally remastered original is a multi page photographic insert filled with images from the Captain Frederick Pabst Mansion historical collection During his preparation of the book author Thomas Cochran was granted full access to the Pabst corporate archives nearly all of which has since been lost or destroyed Without Cochran's work much of the Pabst story would have remained forever untold The book's incredible depth of research offers unmatched insight into the ups and downs of a major American brewer with a particularly strong focus on the period between 1873 when the brewery was first incorporated and 1919 when National Prohibition loomed However in chronicling the company's history Cochran paints a picture that goes well beyond the Pabst saga and provides a detailed glimpse into both the development and decline of America's golden age of brewing
