

# Description of the RICS Building Survey Service

---

## The service

The RICS Building Survey Service includes:

- a thorough inspection of the property (see "The inspection"); and
- a detailed report based on the inspection (see "The report").

The surveyor who provides the RICS Building Survey Service aims to:

- help you make a reasoned and informed decision when purchasing the property, or when planning for repairs, maintenance or upgrading the property;
- provide detailed advice on condition;
- describe the identifiable risk of potential or hidden defects;
- where practicable and agreed, provide an estimate of costs for identified repairs; and
- make recommendations as to any further actions or advice which need to be obtained before committing to purchase.

Any extra services provided that are not covered by the terms and conditions of this report must be covered by a separate contract.

## The inspection

The surveyor carefully and thoroughly inspects the inside and outside of the main building and all permanent outbuildings, recording the construction and defects (both major and minor) that are evident. This inspection is intended to cover as much of the property as physically accessible. Where this is not possible an explanation is provided in the "Limitations to inspection" box in the relevant sections of the report.

The surveyor does not force or open up the fabric without owner consent, or if there is a risk of causing personal injury or damage. This includes taking up fitted carpets, fixed floor coverings or floorboards, moving heavy furniture, removing the contents of cupboards, roof spaces, etc., removing secured panels and/or hatches or undoing electrical fittings. The under-floor areas are inspected where there is safe access.

**Inspections and Reports on Dwellings** Ian A. Melville, Ian A. Gordon, 2016-02-05 This new edition of Reporting for Buyers provides guidance for the surveyor on setting out the findings of the inspection in a clear unambiguous and unequivocal way The book provides a full critical look at the current situation describing the various types of report currently available to the public for commissioning The limitations and attributes of these reports are discussed and their respective forms of advice considered in detail together with the advice provided to buyers which is a legal requirement to Scotland The authors stress the need for Surveyors to demonstrate their all round abilities by putting themselves in their client s shoes to provide advice appropriate to their needs and requirements In doing so they set out a cogent criticism of the standardised forms of advice offered to buyers and the lack of transparency in how they are presented by comparing what is seen by the client and what is set out in the various guidelines available Surveyors will find the site notes and sample reports invaluable in demonstrating how the same dwelling can be described in the reports available Sample reports include mortgage valuation report RICS Condition Report RPSA Home Condition Survey Scottish Single Survey and the RICS Home Buyer Report This book is intended for all those engaged in inspecting and reporting on dwellings whether experienced newly qualified or studying for appropriate qualifications to become members of professional institutions It will also be found useful to conveyancing solicitors acting for lenders
