Improving Competence Across the Lifespan Dolores Pushkar, William M. Bukowski, Alex E. Schwartzman, Dale M. Stack, Donna R. White, 2007-05-08 This book arises from a conference held in November 1996 designed to examine how competence can be improved in the different stages of the lifespan. To this end we brought together eminent researchers in different areas of human development: infancy, childhood, and adulthood, including the late adult years. The conference was based on the premise that discussion arising from the interfaces of research and practice would increase our knowledge of and stimulate the further application of effective interventions designed to improve competence. The editors wish to acknowledge the contributions of Concordia University and the Fonds pour la Formation de Chercheurs et l'Aide à la Recherche FCAR in providing funding and other assistance toward the conference **Improving Competence Across the Lifespan** and toward the publication of this book. Finally, we wish to express our gratitude to the numerous students associated with our Centre for their help and to Gail Pitts and Lesley Husband of the Centre for Research in Human Development for their assistance. We are especially grateful to Donna Craven, Centre for Research in Human Development, for her heroic work on both the conference and the present volume. We could not have met our goals without you. **Improving Competence Across the Lifespan**, 1998-03-31 Proceedings of a Conference held in Montreal, Canada, November 15-17, 1996. *Resources in Education*, 1997. **Canadiana**, 1989. Nock, 2014-07-01 Schacter, Gilbert, Wegner, and Nock's *Psychology Third Edition* is widely acclaimed for captivating students with contemporary psychology research on the major topics of the introductory course while helping them develop critical thinking skills that will stay with them beyond the course term. Expert coverage of the DSM-5, quirky examples of thinking gone awry, scenarios based on common psychological misconceptions, and contributions from new co-author Matthew Nock highlight the new edition. And now this breakthrough text is available in a version created just for Canadian students and teachers. It offers the same fascinating writing, helpful study tools, and keen eye for intriguing stories as *Psychology Third Edition* but with a wide range of Canadian examples and impactful work by Canadian researchers incorporated throughout.
