Sixties British Cinema Robert Murphy, 2019-07-25 British films of the 1960s are undervalued Their search for realism has often been dismissed as drabness and their more frivolous efforts can now appear just empty headed

Robert Murphy's *Sixties British Cinema* is the first study to challenge this view. He shows that the realist tradition of the late 50s and early 60s was anything but dreary and depressing and gave birth to a clutch of films remarkable for their confidence and vitality. *Saturday Night and Sunday Morning*, *A Kind of Loving* and *A Taste of Honey* are only the better known titles. *Sixties British Cinema* revalues key genres of the period: horror, crime and comedy, and takes a fresh look at the swinging London films, finding disturbing undertones that reflect the cultural changes of the decade. Now that our cinematic past is constantly recycled on television, Murphy's informative, engaging and perceptive review of these films and their cultural and industrial context offers an invaluable guide to this neglected era of British cinema. *A Critical History of the British Cinema* Roy Armes, 1978. This comprehensive survey probes the strengths and shortcomings of a national output conditioned by a love-hate relationship with Hollywood.

Alfred Hitchcock and the British Cinema Tom Ryall, 2000-12-01. First published in 1986, this standard account of Hitchcock's British films and film-making is now available again in a Second Edition with a new Introduction and Bibliography. It will be welcomed by all students of the film and admirers of Hitchcock.

Robert Paul and the Origins of British Cinema Ian Christie, 2019-12-09. The early years of film were dominated by competition between inventors in America and France, especially Thomas Edison and the Lumière brothers. But while these have generally been considered the foremost pioneers of film, they were not the only crucial figures in its inception. Telling the story of the white-hot years of filmmaking in the 1890s, *Robert Paul and the Origins of British Cinema* seeks to restore Robert Paul, Britain's most important early innovator in film, to his rightful place. From improving upon Edison's Kinetoscope to co-creating the first movie camera in Britain, to building England's first film studio and launching the country's motion picture industry, Paul played a key part in the history of cinema worldwide. It's not only Paul's story, however, that historian Ian Christie tells here. *Robert Paul and the Origins of British Cinema* also details the race among inventors to develop lucrative technologies and the jumbled culture of patent-snatching, showmanship and music halls that prevailed in the last decade of the nineteenth century. Both an in-depth biography and a magnificent look at early cinema and fin de siècle Britain, *Robert Paul and the Origins of British Cinema* is a first-rate cultural history of a fascinating era of global invention and the revelation of one of its undervalued contributors.

British Cinema, Past and Present Justine Ashby, Andrew Higson, 2013-05-13. *British Cinema Past and Present* responds to the commercial and critical success of British film in the 1990s. Providing a historical perspective to the contemporary resurgence of British cinema, this unique anthology brings together leading international scholars to investigate the rich diversity of British film production from the early sound period of the 1930s to the present day. The contributors address British Cinema Studies and the concept of national cinema, the distribution and reception of British films in the US and Europe, key genres, movements and cycles of British cinema in the 1940s, 50s and 60s, questions of authorship and agency with case studies of individual studios, stars, producers and directors, trends in British cinema from propaganda films of the Second World War to the New Wave and the Swinging London films of

the Sixties the representation of marginalised communities in films such as *Trainspotting* and *The Full Monty* the evolution of social realism from *Saturday Night* *Sunday Morning* to *Nil By Mouth* changing approaches to Northern Ireland and the Troubles in films like *The Long Good Friday* and Alan Clarke's *Elephant* contemporary art and quality cinema from heritage drama to the work of Peter Greenaway Derek Jarman Terence Davies and Patrick Keiller

[British Cinema of the 1950s](#) Sue Harper, Vincent Porter, 2003-09-11 In this definitive and long awaited history of 1950s British cinema Sue Harper and Vincent Porter draw extensively on previously unknown archive material to chart the growing rejection of post war deference by both film makers and cinema audiences Competition from television and successive changes in government policy all forced the production industry to become more market sensitive The films produced by Rank and Ealing many of which harked back to wartime structures of feeling were challenged by those backed by Anglo Amalgamated and Hammer The latter knew how to address the rebellious feelings and growing sexual discontents of a new generation of consumers Even the British Board of Film Censors had to adopt a more liberal attitude The collapse of the studio system also meant that the screenwriters and the art directors had to cede creative control to a new generation of independent producers and film

directors Harper and Porter explore the effects of these social cultural industrial and economic changes on 1950s British cinema *Historical Dictionary of British Cinema* Alan Burton, Steve Chibnall, 2013-07-11 British cinema has been around from the very birth of motion pictures from black and white to color from talkies to sound and now 3D it has been making a major contribution to world cinema Many of its actors and directors have stayed at home but others ventured abroad like Charlie Chaplin and Alfred Hitchcock Today it is still going strong the only real competition to Hollywood turning out films which appeal not only to Brits just think of Bridget Jones while busily adding to franchises like James Bond and Harry Potter So this Historical Dictionary of British Cinema has a lot of ground to cover This it does with over 300 dictionary entries informing us about significant actors producers and directors outstanding films and serials organizations and studios different films genres from comedy to horror and memorable films among other things Two appendixes provide lists of award winners Meanwhile the chronology covers over a century of history These parts provide the details countless details while the introduction offers the big story And the extensive bibliography points toward other sources of information *Alfred Hitchcock & the British Cinema* Tom Ryall, 1986 First published in 1986 this standard account of Hitchcock's British films and film making is now available again in a Second Edition with a new Introduction and Bibliography It will be welcomed by all students of the film and admirers of Hitchcock *British Cinema and the Second World War* Robert Murphy, 2005-08-15 The author provides a decade by decade analysis of every film ever made in Britain about World War II It provides a comprehensive account of how Britain has portrayed the war through films **Thorold Dickinson and the British Cinema** Jeffrey Richards, 1997-08-29 Explores in detail every aspect of the life and career of Thorold Dickinson 1903 1984 who has been called the major lost talent of the British film industry *British Cinema in the 1980's* W. John Hill, 1999 In recent years the role and identity of British Cinema has been changing and it is these changes with which British cinema in the 1980s is concerned It looks at the increasing domination of the world film industry by Hollywood and the response of British filmmaking to this the role of government and the increasingly close relationship between film and television It also examines the kinds of images British Cinema produced in this period and how they relate to the shifting sense of British identity The book not only looks at the appeal of images of the past in the heritage film such as *Howard's End* and films of Empire such as *A Passage to India* but also discusses the more questioning images of the present by the state of the nation film such as *Letter to Brezhnev* and *My Beautiful Laundrette* In doing so it explores how these films deal with issues of class gender and ethnicity and how these in turn connect to our understanding of the Britishness of British cinema *British Cinema in the 1980s* will become the definitive study of an important period of British filmmaking Bringing together a discussion of British society the British film industry and British films John Hill provides an accessible analysis of the main themes and issues characterizing British cinema of the time
