iPhone For Dummies Edward C. Baig,Bob LeVitus,2020-11-24 The latest edition updated to cover iOS 14 and iPhone 12 Nothing seems to change faster than an iPhone Just when you think you know your way around the device a new update arrives and you have to learn everything all over again This fully revised edition of iPhone For Dummies arrives just in time to keep you up to date on iOS 14 the

version of the iOS operating system released in late 2020 as well as all the updated features of iPhone 12. But don't worry if you're sticking with your current iPhone or buying an older model. This book offers help on using any iPhone that runs iOS 14 all the way back to iPhone 6. Written by two longtime Apple fans and experts, this revised guide covers the essentials you'll need to know about the industry leading device and its slick iOS operating system: kicking off with set up, navigating settings, hooking up to wifi, sharing audio and video, and then gearing you up to warp speed with the many incredible ways this smartphone's tools and apps can bring a joyful extra dimension to your life. Explore the basics of iOS 14. Enhance your interests with apps. Get artsy with photos, video, and more. Troubleshoot common problems. Learn what makes the iPhone 12 different than the 11, X, SE, or older models. Whether you're just getting started with a new phone or want to get even more from your current version, iPhone For Dummies puts the power right at your fingertips.

Making Great Strategy Glenn R. Carroll, Jesper B. Sørensen, 2021-01-26. Making strategy requires undertaking major, often irreversible decisions aimed at long-term success in an uncertain future. All leaders must formulate a clear course of action, yet many lack confidence in their ability to think systematically about their strategy. They struggle to apply the abstract lessons offered by conventional approaches to strategic analysis to their unique contexts. *Making Great Strategy* resolves these challenges with a straightforward, readily applicable framework. Jesper B. Sørensen and Glenn R. Carroll show that one factor underlies all sustainably successful strategies: a logically coherent argument that connects resources, capabilities, and environmental conditions to desired outcomes. They introduce a system for formulating and managing strategy through a set of three core activities: visualization, formalization, and logic and constructive argumentation. These activities can be implemented in any organization and are illustrated through examples and case studies from well-known companies such as Apple, Walmart, and The Economist. This book shows that while great strategic thinking is hard, it is not a mystery. Widely applicable and relevant for managers and leaders at all levels, especially executive teams charged with setting the course of their organizations, it is essential reading for anyone faced with practical problems of strategic management.

Perspectives on Digital Humanism Hannes Werthner, Erich Prem, Edward A. Lee, Carlo Ghezzi, 2021-11-23. This open access book aims to set an agenda for research and action in the field of Digital Humanism through short essays written by selected thinkers from a variety of disciplines including computer science, philosophy, education, law, economics, history, anthropology, political science, and sociology. This initiative emerged from the Vienna Manifesto on Digital Humanism and the associated lecture series Digital Humanism deals with the complex relationships between people and machines in digital times. It acknowledges the potential of information technology. At the same time, it points to societal threats such as privacy violations and ethical concerns around artificial intelligence, automation, and loss of jobs, ongoing monopolization on the Web, and sovereignty. Digital Humanism aims to address these topics with a sense of urgency but with a constructive mindset. The book argues for a Digital Humanism that analyses and most importantly influences the complex interplay of technology and humankind toward a better society and life.

while fully respecting universal human rights It is a call to shaping technologies in accordance with human values and needs
