FCC Record United States. Federal Communications Commission, 2017 Global Meets Digital Vinod Jain, 2023-06-02

The world today is at the intersection of two megatrends Globalization and Digitalization a business revolution unfolding in real time Global Meets Digital captures the many nuances of this revolution succinctly including its impact on our lives and business An immediate implication of this revolution is that the economic principles that underpinned business and strategy for hundreds of years such as diminishing returns to scale and resource scarcity are no longer valid for a large and growing number of products and services The book will challenge you to think differently not just about digital products but also about physical products In the global digital world products are of three kinds physical digital and smart machines products that are both physical and digital and connected to the internet a distinction missed by most books on strategy and global business The economics of each kind of products is distinct from that of the others which has strategic implications for all kinds of businesses implications such as how to compete and how to create and capture value With several mini case studies and over 100 company examples the book covers themes and cutting edge issues like the paradox of globalization digital disruption disruptive business models exponential technologies Internet of Things competition in digital markets winner take all market dynamics Industry 4.0 how to innovate strategizing for the New Normal and value creation and value capture in both B2C and B2B contexts The book derives its underpinnings from the practice of global and digital business while theory remains in the background Intended specifically for an executive professional audience Global Meets Digital should also be of value to business students and professors learning to dip their toes into a digital world Vinod Jain is an expert in global and digital strategy award winning professor Fulbright Scholar and author of an MBA textbook Global Strategy He taught at the Rutgers Business School Newark and New Brunswick and the Robert H Smith School of Business University of Maryland College Park At Maryland he was also the Founding Director of the federally funded Center for International Business Education and Research and Academic Director of Smith School's Executive MBA program in China Since leaving Maryland he has taught in China Denmark Finland Poland and India as a visiting or term professor His opinion pieces have appeared in The Washington Post The Baltimore Sun Mensa Bulletin and Economic Times and Mint India's 1 and 2 business dailies among other media In the past he worked as a middle and senior level executive with American and British multinationals Vinod has a PhD in Strategy and International Business from the University of Maryland College Park MS in Management from UCLA and MS and BS Hons in Statistics from the Indian Statistical Institute Calcutta Media Management Bernd W. Wirtz, 2020-09-11 Digitalization significantly changes the media To cope with this change and to exploit new market opportunities is a major challenge for media corporations Bernd Wirtz provides a valuable guideline for this new world combining theory facts and practice Dr Hubert Burda German publisher and Managing Corporate Partner of Hubert Burda Media Holding KG The media business is subject to substantial change while differences between distinctive media areas are

fading away This is due to technical innovation in areas like transmittance of content bearer of content and recording devices but also due to new formats trends and constant change of consumer behavior The textbook Media and Internet Management stays abreast of changes and covers this topic on a well founded and comprehensive basis It makes a valuable contribution to theory and practice in media management and is highly recommendable to media managers Christoph Mohn Chairman of the Supervisory Board Bertelsmann AG The world of media is full of challenges and dynamic conditions for its field The dynamic of this market is accelerated even more by new digital technologies and ongoing globalization This book is an absolute must have for everyone who wants to know more about the basics conditions and requirements of modern media management The analytical clearness and structure make this publication highly relevant for students but also for managers Urs Rohner Chairman of the Board of Directors Credit Suisse Group AG Media Management is a textbook but a very welcome newcomer for students and teachers as it fills a market gap for good educational material in this rapidly evolving field It is concise simple but not simplistic and contains a contemporary overview of concepts and tools for media managers Prof Dr Bozena I Mierzejewska Editor of The International Journal on Media Management Fordham University New York Summed up with his second edition Wirtz managed to strengthen the outstanding position of his publication Media Management His textbook shines because of its content analytical clearness and the high relevance for business practice without losing its academic background With the second edition this book has established its position in the field of media business as the leading standard reference book in Germany It is suitable for business students lectures as well as managers who can gain magnificent information from it Prof Dr Wolfgang Fritz Director of the Institute of Marketing Braunschweig University of Technology Germany Honorary Professor at the Institute of Business Administration University of Vienna Austria

Demand for Communications Services - Insights and Perspectives James Alleman,Áine Marie Patricia Ní-Shúilleabháin,Paul N. Rappoport,2013-10-07 This volume grew out of a conference organized by James Alleman and Paul Rappoport conducted on October 10 2011 in Jackson Hole Wyoming in honor of the work of Lester D Taylor whose pioneering work in demand and market analysis has had profound implications on research across a wide spectrum of industries In his Prologue Eli M Noam notes that demand analysis in the information sector must recognize the public good characteristics of media products and networks while taking into account the effects of interdependent user behavior the strong cross elasticities in a market as well as the phenomenon of supply creating its own demand The second Prologue by Timothy Tardiff and Daniel Levy focuses more specifically on Taylor s body of work in particular its practical applications and usefulness in analyses of and practices within the Information and Communications Technology ICT sector known in Europe and elsewhere as the Telecommunications Media and Technology TMT sector The remainder of the book is organized into four parts Advances in Theory Empirical Applications Evidence Based Policy Applications and a final Conclusion The book closes with an Appendix by Sharon Levin and Stanford Levin detailing Taylor s contributions using bibliometrics Not only

featuring chapters from distinguished scholars in economics applied sciences and technology this volume includes two contributions directly from Lester Taylor providing unique insight into economics from a lifetime in the field What a worthy book Every applied researcher in communications encounters Lester Taylor s work Many empirical exercises in communications can trace their roots to Taylor s pioneering research and his thoughtful leadership This book assembles an impressive set of contributors and contributions to honor Taylor No surprise the collection extends far and wide into many of the core topics of communications and media markets The emphasis is where it should be on important and novel research questions informed by useful data Shane Greenstein Professor of Management and Strategy Kellogg School of Management Northwestern University For more than 40 years Lester Taylor has been a leader in the application of consumer modeling econometric techniques and microeconomic data to understand residential and business user behavior in telecommunications markets During that time he inspired a cadre of students and colleagues who applied this potent combination to address critical corporate and regulatory issues arising in the telecommunications sector This volume collects the recent product of many of these same researchers and several other devotees who go beyond empirical analysis of fixed line service by extending Prof Taylor s approach to the next wave of services and technologies These contributions including two new papers by Prof Taylor offer an opportunity for the next generation to learn from his work as it grapples with the pressing issues of consumer demand in the rapidly evolving digital economy Glenn Woroch Adjunct Professor of Economics University of California Berkeley
