Hae Young Lee

Math Worksheet Netflix Near Me:

Rethinking School Susan Wise Bauer, 2018-01-09 If you read only one book on educating children this should be the book. With a warm, informative voice, Bauer gives you the knowledge that will help you flex the educational model to meet the needs of your child. San Francisco Book Review: Our K-12 school system isn't a good fit for all or even most students. It prioritizes a single way of understanding the world over all others, pushes children into a rigid set of grades with little regard for individual maturity, and slaps disability labels on differences in learning style. Caught in this system, far too many young learners end up discouraged. This informed, compassionate, and practical guidebook will show you how to take control of your child's K-12 experience and negotiate the school system in a way that nurtures your child's mind, emotions, and spirit. Understand why we have twelve grades and why we match them to ages. Evaluate your child's maturity and determine how to use that knowledge to your advantage. Find out what subject areas we study in school, why they exist, and how to tinker with them. Discover what learning disabilities and intellectual giftedness are, how they can overlap, how to recognize them, and how those labels can help or hinder you. Work effectively with your child's teachers, tutors, and coaches. Learn to teach important subjects yourself. Challenge accepted ideas about homework and standardized testing. Help your child develop a vision for the future. Reclaim your family's priorities, including time for eating together, playing, imagining, traveling, and yes, sleeping. Plan for college or apprenticeships. Consider out-of-the-box alternatives.

A Guide to Teaching, Parenting and Creating Family-Friendly Schools Emma Sheppard, 2022-12-30 At The MTPT Project, we know that teaching can be a sustainable career choice for parents, and in this essential handbook, we show you how. Supported by case studies celebrating the best that the family-friendly schools and happy teachers in our community have to offer, this book is a lifeline for both educators aspiring to combine their passion for teaching with becoming a parent and the school leader who wants to empower them. However, you become a parent or choose to grow your family and your career, this handbook will provide you with the guidance and cheerleading that you need to fulfill your personal and professional aspirations. The book is divided into nine chapters, guiding readers from the first considerations of family planning all the way through to the reality that some teachers and leaders may choose to leave classrooms for good. Each chapter includes the latest research on working families, legalities associated with different stages of working parenthood, including discrimination and how to avoid it as an employer and address it as an employee, case studies from our community, suggestions for individuals and schools, recommended further reading. Each chapter will help you to navigate the journey from planning a family to stepping in and out of teaching to suit your parenting needs to creating family-friendly working environments, whatever your role in school. With its mixture of research-informed solutions, hints, and tips, this text is perfect for colleagues embarking on their parenting journey and school leaders who want to take practical steps to retain and empower valued colleagues.
