The HUMAN Agentic AI Edge Andreas Welsch, 2026-02-25 Organizations are racing to deploy Agentic AI yet few are ready for the risks that emerge when employees use AI without structure standards or oversight The HUMAN Agentic AI Edge offers leaders a practical blueprint for building accountable AI ready teams that consistently produce high quality results Drawing on real world knowledge and insights from interviews with more than 50 AI leaders and experts Andreas Welsch shows how to combine human judgment with Agentic AI capabilities to reach the level of performance many organizations expect but rarely achieve Instead of driving efficiency teams are drowning in AI generated noise disguised as information Generic content fabricated facts and poor decisions are the signs of AI workslop when employees rely on AI without proper guidance producing low quality output that slows everyone down and tarnishes your company s reputation But your customers and stakeholders expect more from you than creating AI slop at scale In *The HUMAN Agentic AI Edge* you will discover how to Develop essential AI skills across your workforce Combine human expertise with Agentic AI scale Establish clear accountability for AI augmented work Normalize responsible accurate and trusted AI use Scale beyond personal productivity without creating AI slop From understanding workforce shifts to actionable strategies for embracing how humans and AI collaborate best this book prepares you to shape the next generation of AI ready teams that deliver high quality results with high accountability *The Future of the International Monetary System* Fabio Masini, Bernard Snoy et d'Oppuers, 2026-04-09 With the current architecture of global monetary institutions and governance reaching a crisis point this book engages with the scholarly and policy debates that have emerged around alternative devices and structures for the management of the international economy The key question underpinning this edited volume is whether adjustments to the current global economic governance are enough or whether major reform is necessary and in which direction to avoid a crash of the system itself Each contributor explores a specific area for possible adjustment or reform addressing key questions including What is the future of the international economic and monetary system What reforms are to be prioritized to steer the global economy through the challenges of the next decades What are the necessary steps to be taken during the transition How can theoretical and policy issues concerning the foundation of a more efficient multi layered system of governance be resolved The book will be of great interest to readers in international monetary systems economic governance and international finance and banking more broadly **Cognitive Kin** Christophe Kolb, Jan Rosen, 2026-03-10 Now that AI has a will it s up to us to find a way For decades we built software that did what it was told and nothing else Agentic AI breaks this bargain systems that remember reason and pursue goals They arrive less like code and more like colleagues tireless fast and like any new hire occasionally in need of supervision In *Cognitive Kin* Christophe Kolb and Jan Rosen map the threshold where artificial intelligence stops being a feature and becomes a workforce Drawing on firsthand experience at the frontier of agentic AI they show how digital labor becomes viable why org charts give way to networks of intent and how

leadership shifts to orchestration They translate the machinery memory feedback loops tool use into plain language then follow the shockwave into strategy culture and governance This isn't tomorrow's speculation It's a present tense transition that is reshaping the meaning of work and creating new sources of value The advantage will belong to firms that learn to think with thinking things working alongside intelligent systems without outsourcing judgment meaning or responsibility

Stablecoins and the Future of Financial Regulation Thomason, Jane, 2026-01-22 Stablecoins are digital assets designed to maintain a steady value by pegging to fiat currencies or other stable assets that are rapidly reshaping the global financial landscape As the use expands across payments and decentralized finance regulators face the complex challenge of balancing innovation with financial stability and systemic risk management The evolution of stablecoin regulation will likely define the next phase of digital finance influencing how governments and individuals interact with money itself Stablecoins and the Future of Financial Regulation explores what stablecoins are how they work why they matter and how they are essential for a digital financial future The book provides a balanced flexible and future proof approach to regulating a new form of money Covering topics such as stablecoins financial regulation and policies this book is an excellent resource for policymakers industry professionals academicians and graduate students

Bad Influence Deborah Cohen, 2026-01-22 You used to see a doctor Now you go online Your definitive guide to separating medical facts from online fiction Adam Kay author of This is Going to Hurt This superb book is an essential guide to the wild world of internet health Chris van Tulleken author of Ultra Processed People Need to focus Want to lose weight Build muscle Get pregnant Advice is just a click away With long waits for treatment and fewer face to face GP appointments influencers have stepped into the breach From doctors promoting untested therapies to celebrities selling solutions these self styled experts radiate wellness and guarantee results Exploring the transformation of a healthcare system driven by online trends Dr Deborah Cohen reveals the truth behind Ozempic influencers AI powered diagnoses preventative screening and Instagram's favourite wearable tech Bad Influence is about the commodification of health in an age of anxiety and why we can no longer distinguish medicine from marketing In a world where online medical opinions are fast and often dodgy this is the perfect antidote Prof Kevin Fong

The PayPal Wars Eric M. Jackson, 2006 When Peter Thiel and Max Levchin launched an online payment website in 1999 they hoped their service could improve the lives of millions around the globe But when their start up PayPal survived the dot com crash only to find itself besieged by unimaginable challenges that dream threatened to become a nightmare PayPal's history as told by former insider Eric Jackson is an engrossing study of human struggle and perseverance against overwhelming odds The entrepreneurs that Thiel and Levchin recruited to overhaul world currency markets first had to face some of the greatest trials ever thrown at a Silicon Valley company before they could make internet history Revised and updated this narrative is an adventure in capitalism Reveals how PayPal went from bleeding 10 million per month to becoming a financial powerhouse Sheds light on eBay's current woes and PayPal's pending showdown with Google Publisher
