Locked Out Evan Elkins, 2019-08-31 A rare insight into how industry practices like regional restrictions have shaped global media culture in the digital era This content is not available in your country At some point most media consumers around the world have run into a message like this Whether trying to watch a DVD purchased during a vacation abroad play an imported Japanese video game or listen to a Spotify library while traveling we are constantly reminded of geography s imprint on digital culture We are locked out Despite utopian hopes of a borderless digital society DVDs video games and streaming platforms include digital rights management mechanisms that block media access within certain territories These technologies of regional lockout are meant first and foremost to keep the entertainment industries global markets distinct But they also frustrate consumers and place territories on a hierarchy of global media access Drawing on extensive research of media industry strategies consumer and retailer practices and media regulation *Locked Out* explores regional lockout s consequences for media around the globe Power and capital are at play when it comes to who can consume what content and who can be a cultural influence Looking across digital technologies industries and national contexts *Locked Out* argues that the practice of regional lockout has shaped and reinforced global hierarchies of geography and culture *The Four Competitive Business Drivers* Jorge Sá, Magda Pereira, 2026-01-13 Sometimes management books achieve a clear cut distinction between strategy and tactics Seldom they include the business model as a third competitiveness driver And never so far has the theory of business been considered as a fourth required performance vector different from all other three However organizational optimization requires all four the why where what and how The theory of business Drucker is the why the company makes sense The reality assumptions the organization is grounded upon What it is paid for The business model Porter is the what the basic pillars of a firm s organization How it transforms client satisfaction into value for itself Strategy Joffre is the where the choice of 1 geographical areas 2 industries and 3 within them of segments And tactics is the how respecting to the nine functional areas from marketing Kotler to human resources to how to advertise how to motivate etc Four inferences follow All four drivers are necessary conditions none sufficient They interrelate some impacting on others They must fit reinforcing each other and They should be periodically reviewed under a sequence of steps This is illustrated by the book s detailed examples of e g Nike Dollar Shave Club Spotify SpaceX Vend me Sears IBM Apple Music McDonald s Marks Spencer Canva SolarCity Farfetch etc The fundamental message is that neglect of any of the four drivers brings efficiency doing things right the Phronesis of Aristotle at the cost of lower effectiveness doing the right things the Chokhmah of Solomon With more and more resources producing less and less underperformance will follow *The Tyranny of Big Tech* Josh Hawley, 2021-05-04 The reign of Big Tech is here and Americans First Amendment rights hang by a keystroke Amassing unimaginable amounts of personal data giants like Google Facebook Amazon and Apple once symbols of American ingenuity and freedom have become a techno oligarchy with overwhelming economic and political power Decades of unchecked data

collection have given Big Tech more targeted control over Americans daily lives than any company or government in the world In *The Tyranny of Big Tech* Senator Josh Hawley of Missouri argues that these mega corporations controlled by the robber barons of the modern era are the gravest threat to American liberty in decades To reverse course Hawley argues we must correct progressives mistakes of the past That means recovering the link between liberty and democratic participation building an economy that makes the working class strong independent and beholden to no one and curbing the influence of corporate and political elites Big Tech and its allies do not deal gently with those who cross them and Senator Hawley proudly bears his own battle scars But hubris is dangerous The time is ripe to overcome the tyranny of Big Tech by reshaping the business and legal landscape of the digital world
