artists and brand and corporate communication managers alike *The Imposter as Social Theory* Steve Woolgar,Else Vogel,David Moats,Claes-Fredrik Helgesson,2022-08 Edited by expert scholars this volume explores the imposter through empirical cases including click farms bikers business leaders and fraudulent scientists providing insights into the social relations and cultural forms from which they emerge *Data-Centric Business and Applications* Natalia Kryvinska,Michal Greguš,2019-07-16 This book explores various aspects of data engineering and information processing In this second volume the authors assess the challenges and opportunities involved in doing business with information Their contributions on business information processing and management reflect diverse viewpoints not only technological but also business and social As the global marketplace grows more and more complex due to the increasing availability of data the information business is steadily gaining popularity and has a huge impact on modern society Thus there is a growing need for consensus on how business information can be created accessed used and managed

**Communication Technology Update and Fundamentals** August E. Grant,Jennifer H. Meadows,2016-11-03 Communication Technology Update and Fundamentals has set the standard as the single best resource for students and professionals looking to brush up on how communication technologies have developed grown and converged as well as what s in store for the future The 15th edition is completely updated reflecting the changes that have swept the communication industries The first five chapters offer the communication technology fundamentals including the ecosystem the history and structure then delves into each of about two dozen technologies including mass media computers consumer electronics and networking technologies Each chapter is written by experts who provide snapshots of the state of each individual field Together these updates provide a broad overview of these industries as well as the role communication technologies play in our everyday lives In addition to substantial updates to each chapter the 15th edition includes First ever chapters on Big Data and the Internet of Things Updated user data in every chapter Projections of what each technology will become by 2031 Suggestions on how to get a job working with the technologies discussed The companion website [www.tfi.com.ctu](http://www.tfi.com.ctu) offers updated information on the technologies covered in this text as well as links to other resources

*Terms of Service* Jacob Silverman,2015-03-17 Social networking has grown into a staple of modern society but its continued evolution is becoming increasingly detrimental to our lives Shifts in communication and privacy are affecting us more than we realize or understand *Terms of Service* crystalizes this current moment in technology and contemplates its implications the identity validating pleasures and perils of online visibility our newly adopted view of daily life through the lens of what is share worthy and the surveillance state operated by social media platforms Facebook Google Twitter and others to mine our personal data for advertising revenue an invasion of our lives that is as pervasive as government spying Jacob Silverman calls for social media users to take back ownership of their digital selves from the Silicon Valley corporations who claim to know what s best for them Integrating politics sociology national security pop culture and technology he reveals the surprising conformity at the heart of Internet culture explaining how

social media companies engineer their products to encourage shallow engagement and discourage dissent Reflecting on the collapsed barriers between our private and public lives Silverman brings into focus the inner conflict we feel when deciding what to share and what to like and explains how we can take the steps we need to free ourselves from its grip **Essentials of Marketing Analytics, 1e** Joseph F. Hair (Jr.), Dana E. Harrison, Haya Ajjan, 2021 We developed this new book with enthusiasm and great optimism Marketing analytics is an exciting field to study and there are numerous emerging opportunities for students at the undergraduate level and particularly at the master's level We live in a global highly competitive rapidly changing world that is increasingly influenced by digital data expanded analytical capabilities information technology social media artificial intelligence and many other recent developments We believe this book will become the premier source for new and essential knowledge in data analytics particularly for situations related to marketing decision making that can benefit from marketing analytics which is likely 80 percent of all challenges faced by organizations
