**Smart Rivals** Feng Zhu, Bonnie Yining Cao, 2024-08-20 A fresh research based look at how companies can better compete on their own terms with tech giants from a Harvard Business School professor and a former Bloomberg journalist. Companies are fighting the wrong battle. The consensus has been to learn the best practices from tech giants and then imitate them. But new paths for growth aren't created by imitation; they're forged by radical differentiation. In *Smart Rivals*, Harvard Business School professor Feng Zhu and former Bloomberg journalist Bonnie Yining Cao show business leaders how to create competitive advantages by offering product features and benefits that tech giants and other competitors cannot match in the digital AI age. Taking readers on a global journey, Zhu and Cao showcase a variety of companies including Domino's, Nike, and Sephora, and fascinating case studies such as Belle, the leading women's footwear retailer in China; EbonyLife, Nigeria's top media conglomerate; and Telepass, Italy's popular electronic toll payment service. Through these diverse examples, they illustrate how companies identify their path for growth in the digital age by leveraging their unique capabilities. Drawing on original research and insights gleaned from leaders in a wide range of industries, *Smart Rivals* is a blueprint for uncovering your company's hidden strengths. It will help you spark innovative solutions and capabilities, including new products, services, strategies, and advantages that mere imitation could never provide.

[The Quiet Zone](#) Stephen Kurczy,2021-08-03 In this riveting account of an area of Appalachia known as the Quiet Zone where cell phones and WiFi are banned journalist Stephen Kurczy explores the pervasive role of technology in our lives and the innate human need for quiet Captures the complex beauty of a disconnected way of life The Nation With a new afterword to the paperback edition Deep in the Appalachian Mountains lies the last truly quiet town in America Green Bank West Virginia is a place at once futuristic and old fashioned It s home to the Green Bank Observatory where astronomers search the depths of the universe using the latest technology while schoolchildren go without WiFi or iPads With a ban on all devices emanating radio frequencies that might interfere with the observatory s telescopes Quiet Zone residents live a life free from constant digital connectivity But a community that on the surface seems idyllic is a place of contradictions where the provincial meets the

seemingly supernatural and quiet can serve as a cover for something darker Stephen Kurczy embedded in Green Bank making the residents of this small Appalachian village his neighbors He shopped at the town s general store attended church services went target shooting with a seven year old square danced with the locals sampled the local moonshine In The Quiet Zone he introduces us to an unforgettable cast of characters There is a tech buster patrolling the area for illegal radio waves electrosensitives who claim that WiFi is deadly a sheriff s department with a string of unsolved murder cases dating back decades a camp of neo Nazis plotting their resurgence from a nearby mountain hollow Amongst them all are the ordinary citizens seeking a simpler way of living Kurczy asks Is a less connected life desirable Is it even possible The Quiet Zone is a remarkable work of investigative journalism at once a stirring ode to place a tautly wound tale of mystery and a clarion call to reexamine the role technology plays in our lives
