region **Quotatives** Isabelle Buchstaller, Ingrid van Alphen, 2012-05-01 Research on quotation has yielded a rich and diverse knowledge base. Scientific interest has been sparked particularly by the recent emergence of new quotative forms in typologically related and unrelated languages i.e. English, Hebrew, Japanese, etc. The present collection gives a platform to research conducted within different linguistic sub-disciplines and on the basis of a variety of Western and non-Western languages. The introduction presents an overview of forms and functions of old and new quotative constructions. The nine chapters investigate quotation from different perspectives: from conversation analysis, over grammaticalization and language variation and change, to typological and formal approaches. The collection advocates a comprehensive approach to the phenomenon of quotation, seeking a more nuanced knowledge base as regards the linguistic properties, social uses and pragmatic functions than monolingual or single disciplinary approaches deliver. The cross-disciplinary nature and the wealth of data make the findings broadly available and relevant.

A dictionary of intermediate Japanese grammar Seiichi Makino, 1998 Hossfeld's Japanese Grammar Henry J. Weintz, 1904 Appendix to Hossfeld's Japanese Grammar H. J. Weintz, 1905 Learning Japanese for Real Senko K. Maynard, 2011-03-02 Concise descriptions of grammar use and genres make *Learning Japanese for Real* indispensable for adult learners of the language. The volume presents a holistic view of the knowledge required for proficiency in Japanese. Following introductory chapters on the language's background, sound system and scripts, word types and grammatical categories, it introduces readers to simple then complex sentences. A chapter on emotive expressions contains highly useful entries on attitudinal adverbs, exclamatory phrases, interjections and rhetorical questions, all of which carry emotive meanings. *Learning Japanese for Real* then goes beyond grammar to discuss how the language is used in interaction. The author discusses communication strategies such as requesting, apologizing and inviting, as well as how to interact when participating in a conversation with behaviors such as hand signals, bowing and nodding. She considers metaphor, tautology, puns and the lingering effect of *yojoo* before addressing the organization of Japanese discourse, including the four-part organizational principle of *ki shoo ten ketsu* and the structure of staging. The final sections feature authentic examples of popular culture discourse from manga, television, advertising, magazines and cell phone novels, and a host of practical suggestions, methods, tools, resources for learning Japanese. *Learning Japanese for Real* will become a key source for Japanese language students during their elementary, intermediate and advanced training. As an essential anthology of grammar use and genres of the Nihongo world, teachers of Japanese will also find it invaluable.
