

# 3 Types of AI

1

## Artificial Narrow Intelligence (ANI)

These Artificial Intelligence systems are designed to solve one single problem and would be able to execute a single task really well.

2

## Artificial General Intelligence (AGI)

Has a human-level of cognitive function, across a wide variety of domains such as language processing, image processing, computational functioning, and so on.

3

## Artificial Super Intelligence (ASI)

Would be able to surpass all human capabilities. This would include decision-making and even things like making better art and building emotional relationships.
