Sports Law in the United States Matthew J. Mitten,2026-01-23 Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of sports law in the United States deals with the regulation of sports activity by both public authorities and private sports organizations The growing internationalization of sports inevitably increases the weight of global regulation yet each country maintains its own distinct regime of sports law and its own national and local sports organizations Sports law at a national or organizational level thus gains a growing relevance in comparative law The book describes and discusses both state created rules and autonomous self regulation regarding the variety of economic social commercial cultural and political aspects of sports activities Self regulation manifests itself in the form of by laws and encompasses organizational provisions disciplinary rules and rules of play However the trend towards more professionalism in sports and the growing economic social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities This form of regulation appears in a variety of legal areas including criminal law labour law commercial law tax law competition law and tort law and may vary following a particular type or sector of sport It is in this dual and overlapping context that such much publicized aspects as doping sponsoring and media and responsibility for injuries are legally measured This monograph fills a gap in the legal literature by giving academics practitioners sports organizations and policy makers access to sports law at this specific level Lawyers representing parties with interests in the United States will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative sports law [Brandweek](#) ,2005-10

Fundamentals of Antitrust Law Phillip Areeda,Herbert Hovenkamp,2011-01-01 The hands on guide to antitrust issues that todayand s courts confront most often with guidance on developing litigation strategy counseling clients on compliance representing clients before regulators and advising on mergers and acquisitions confidently advise clients on Sherman Act compliance Hart Scott Rodino distribution and pricing issues and complex commercial litigation By Herbert Hovenkamp and Phillip E Areeda Now published in a single volume with an annual update Fundamentals of Antitrust Law Fourth Edition provides sophisticated coverage of the topics most cited or litigated in the field Whether you are developing litigation strategy counseling clients on compliance representing clients before regulators or advising on mergers and acquisitions Fundamentals of Antitrust Law Fourth Edition has all the information you need at your fingertips Turn to this invaluable volume when Advising clients on specific aspects to comply with the Sherman Act Developing litigation strategies Representing clients before regulators Advising clients on mergers and acquisitions Advising clients on Hart Scott Rodino Handling complex commercial litigation Handling distribution and pricing issues for clients And more Organized by issue Fundamentals of Antitrust Law Fourth Edition covers the full range of anticompetitive conduct as well as procedural issues It
