James J. Duderstadt, 2017 University presidents are expected to draw upon their experiences to draft a book suggesting possible futures for higher education. Since my term of office ended in 1996 as the new century approached it was natural to label this assignment as *A University for the 21st Century*, a book that was awarded the Alice Beeman Award of CASE, the Council on Advancement and Support of Education, in 2001. Although this effort was heavily influenced by my experience in serving the University of Michigan as dean, provost, and president during the 1980s and 1990s, I attempted to paint a broader picture of American higher education writ large. Of course, universities have a remarkable constancy in roles such as teaching and scholarship in organizations such as schools, colleges, and departments, and in cultures such as academic freedom and tenure. Indeed, as Clark Kerr has noted in his famous quote:
