

# Smart Devices at Home: Helpful or Harmful?

Reading Comprehension

## Pre-reading Questions

Discuss the following questions with a partner.

1. What smart device do you know about?
2. Do you have any smart devices at home? What do they do?
3. What are some advantages of smart homes?
4. Do you think smart devices can bring us people? Is that a problem?

These days, smart devices are everywhere. In our bedrooms, bathrooms and even our front doors. They can turn on lights, play music, answer questions and help us keep in touch. But are they always a good thing? We asked teens around the world what they think about having smart devices in their homes. Here's what they had to say.

## Ask It First!

I think smart devices are cool because they make life easier. You can turn on lights or play music just by speaking. This is very helpful when you are busy or tired. But I also feel worried about privacy. These devices are always listening, and maybe they hear things we don't want to share. What if someone can use that information? I don't know where my data goes. It's a little scary. I think smart homes are great, but we need better control over what is recorded and who can use it.

Smart devices can be helpful, but they can also be scary. I don't know where my data goes or what it's used for. I don't know where my data goes or what it's used for.
