**The Impact Equation** Chris Brogan,Julien Stanwell Smith,2012-10-25 Anyone can write a blog post but not everyone can get it liked thirty five thousand times and not everyone can get seventy five thousand subscribers But the reason we ve done these things isn t because we re special It s because we tried and failed the same way you learn to ride a bike We tried again and again and now we have an idea how to get from point A to point B faster because of it Three short years ago when Chris Brogan and Julien Smith wrote their bestseller Trust Agents being interesting and human on the Web was enough to build a significant audience But now everybody has a platform The problem is that most of them are just making noise In *The Impact Equation* Brogan and Smith show that to make people truly care about what you have to say you need more than just a good idea trust among your audience or a certain number of followers You need a potent mix of all of the above and more Use the Impact Equation to figure out what you re doing right and wrong Apply it to a blog a tweet a video or a mainstream media advertising campaign Use it to explain why a feature in a national newspaper that reaches millions might have less impact than a blog post that reaches a thousand passionate subscribers Consider the phenomenally successful British singer Adele For most musicians onstage banter basically consists of yelling Hello Cleveland But Adele connects with her audience pausing between songs to discuss a falling out with her friends or the drama of a break up Each of these moments comes off as if she were talking directly with you and you can easily relate Adele has Impact As the

traditional channels for marketing selling and influencing disappear and more people interact mainly online the very nature of attention is changing The Impact Equation will give you the tools and metrics that guarantee your message will be heard
