Going Public Dakin Campbell, 2022-07-26 A behind the scenes tour of the high stakes world of IPOs and how a visionary band of startup executives venture capitalists and maverick bankers has launched a crusade to upend the traditional IPO as we know it GOING PUBLIC is a character driven narrative centered on the last five years of unparalleled change in how technology startups sell shares to the public Initial public offerings or IPOs are typically the first time retail investors can own a piece of the New Economy companies promising to rewire economic rules Selling IPOs is also one of the most profitable businesses for Wall Street investment banks who have spent the last 40 years protecting their profits In an era when algorithms and software have made the financial markets more efficient the pricing of IPOs still relies on human judgment In 2018 executives at music streaming service Spotify sought to upend the status quo Led by a trim and understated CFO Barry McCarthy and a shy but brilliant founder Daniel Ek they took a wild idea and forged something new GOING PUBLIC explores how they got comfortable with the risk and how they lobbied securities watchdogs and exchange staff to rewrite the regulations Readers will meet executives at disruptive companies like Airbnb DoorDash venture capitalists and even some bankers who seized on Spotify s labor and used it to knock Wall Street bankers off the piles of fees they d been stacking for so long GOING PUBLIC weaves in earlier attempts to rethink the IPO process introducing readers to

Collective Management of Music Copyright Qingqing Xu, 2023-04-17 Two of the objectives of the Chinese Copyright Law are to protect the copyright of authors to their literary and artistic works and encourage the creation and dissemination of works In practice however in spite of the existence of the Music Copyright Society of China MCSC that was established to assist with exercising copyright music creators in China remain in need of help to protect and manage their fragmented copyright The MCSC was the first collective management organisation CMO in mainland China and is the only CMO in the field of musical works While there is a large music industry and copyright business in China the MCSC only had 11 356 members at the end of 2021 The third amendment of the Chinese Copyright Law was initiated in 2011 and came into effect in June 2021 after a long debate for almost ten years The discussion of the third amendment has highlighted the controversial topic of collective management of copyright This book explores the adequacy of the MCSC as an intermediary representing rights for music creators The main argument developed in this study is that the work of the MCSC for individual composers and lyricists is hampered by shortcomings in the regulatory regime as well as by a lack of members rights to participate in the management of their own rights and by the ineffective international cooperation between the MCSC and other musical CMOs overseas The analysis is undertaken through a case study approach comparing the collective management systems of music copyright in China the United States and Australia and addressing the question of how musical CMOs operate in these countries Specifically three perspectives are examined the regulatory systems designed to limit the misuse of those CMOs monopoly members rights in the organisations and international cooperation between these CMOs Overall the main findings of this book suggest that the MCSC in China could work more effectively to protect music creators interests In contrast although the operational frameworks of the American Society of Composers Authors and Publishers ASCAP and the Broadcasting Broadcast Music Inc BMI in the United States and the Australasian Performing Right Association APRA in Australia are not perfect models the systems in these two countries may at least provide reference points for potential improvement of the regime of the MCSC The research recommends three courses of action strengthening the regulatory design overseeing the MCSC's monopoly clarifying the relationship between the MCSC and its members while providing the members with the right to manage their own copyright and improving the international cooperation between the MCSC and CMOs in other countries
