Fashion Works Isabel Cantista, 2026-01-19 This book brings together a set of contributions through which it is possible to understand the recent evolution and the moment of disruption in which the textile and fashion industry finds itself. Considered for a long time as a traditional industry with a reduced technological component its competitiveness is now imposed by technological dominance both in terms of new materials or processes based on biotechnology and in terms of data processing and digitalization of processes from production to omnichannel distribution the use of metaverse and Artificial Intelligence. In this book the cases of the Zara and Shein brands new materials and digitalization of processes along the entire value chain are analyzed. Everything is in transformation including Fashion Education. All these changes will lead to questions about the circularity and sustainability of the industry.

Any Happy Returns Peter C. Oppenheimer, 2024-01-17 Clear and well written and can be seen as a helpful primer on a wide range of issues independent of its main theses. The Society of Professional Economists Reading Room. An invaluable read for economic history buffs the book also offers hints on how to invest wisely that will appeal to other readers too. Financial Times. An in depth but accessible analysis of the complex factors that impact structural changes in financial markets and investor opportunities. In **Any Happy Returns** Structural Changes and Super Cycles in Markets celebrated author Peter C Oppenheimer delivers his much anticipated follow up to *The Long Good Buy*. The book discusses how structural changes in macroeconomic drivers geopolitics government policy and social attitudes all combine to drive secular super cycles that help to explain investor returns. The author focuses on what he calls the Post Modern Cycle what it is likely to look like how it will unfold and what investors should focus on. You will also find an introduction to the history of cycles and structural Super Cycles and what has driven them. A detailed analysis of Super Cycles since 1945 including the Post War Boom the Great Moderation the post Global Financial Crisis and Pandemic era. The specific drivers of the emerging Post Modern Cycle amid a higher cost of capital bigger governments more proactive industrial policy greater regulation and less globalisation. Oppenheimer focuses on the developments in technology and AI and on efforts to decarbonise economies and how these might impact financial market returns and opportunities. An invaluable resource for students of economic and financial history and for investors. **Any Happy Returns** is essential reading for anyone seeking insights into upcoming market conditions and returns.

AI: THE POINT OF NO RETURN Efata Publishing Group, This book addresses the disconnect between high corporate investment in generative artificial intelligence and the lack of measurable return on investment ROI in most organizations. It identifies the root causes of this failure in strategy less adoption the accumulation of workshopped low quality content requiring human correction and the erosion of critical skills due to technological dependence. The text offers a management framework focused on solving specific business problems prioritizing integration into operational processes and establishing accountability protocols to transform technology adoption into a sustainable competitive advantage.
