Gehl, 2025 Move Slowly and Build Bridges tells the story of activists software developers artists and everyday people who have built the fediverse a large noncentralized alternative social media system In contrast to big tech corporations like Meta TikTok or X the fediverse is comprised of thousands of small independent communities who use a powerful internet protocol to communicate with one another These small communities can govern themselves and moderate content at the human scale in stark contrast to the global and advertiser friendly interests of Meta or X The Mastodon

network is perhaps the most notable and successful platform in the fediverse Founded in 2016 Mastodon has positioned itself as an alternative to Twitter one that can be completely under the control of its members from it to its daily operations to its underlying software Making a noncentralized ethically run social media system is no easy task The people building the fediverse have faced burnout bigotry angry debates and death threats And they face constant nagging doubts can we really do this Can noncentralized social media survive Can we all of us have our own social media In this thoroughly researched book Robert W Gehl argues that the answer is yes but it won't be easy Account Roll of the Priory of the Holy Trinity, Dublin, 1337-1346 Holy Trinity priory, Dublin,1891 Open Quantum Systems in Biology, Cognitive and Social Sciences Andrei Y. Khrennikov,2023-06-03 This book mathematically analyzes the basic problems of biology decision making and psychology within the framework of the theory of open quantum systems In recent years there has been an explosion of interest in applications of quantum theory in fields beyond physics The main areas include psychology decision making economics finance social science as well as genetics and molecular biology The corresponding models are referred to as quantum like they don't concern any genuine physical processes in the human brain Quantum like models reflect the special features of information processing in biological cognitive and social systems which match well with the quantum formalism This formalism gives rise to the quantum probability model QP which differs essentially from Kolmogorov's classical probability model QP also serves as the basis for quantum information theory Recently QP has been widely applied to the resolution of the basic paradoxes of decision making theory and to modeling experimental data stemming from cognition psychology economics and finance thereby shedding light on probability fallacies and irrational behavior In this book the theory of quantum instruments and the quantum master equation are applied to the modeling of biological and cognitive processes in particular to the stability of complex biological and social systems interacting with their environment An essential part of the book is devoted to the theory of the social laser and the Fr hlich condensate Transactions of the Cumberland & Westmorland Antiquarian & Archeological Society Cumberland and Westmorland Antiquarian and Archaeological Society,1918 List of members included in each volume except v 1 Transactions Exeter diocesan architectural and archaeological society,1842 **Repertorium Ecclesiasticum Parochiale Londinense: Comprising all the county of Essex** Richard Newcourt,1710 *Repertorium ecclesiasticum parochiale Londinense* Richard Newcourt,1710 **A Handbook of Moral Theology** Anton Koch,1924 *Man's duties to his fellowmen* Anton Koch,1924 **American Meat Trade and Retail Butchers Journal** ,1912 **Publications.
