explores the concept of uncertainty and randomness in history and our personal lives and attempts to reconcile how to
handle uncertainty in everyday life In this book Taleb recognizes the fact that it is only the people who take risks that is
people with skin in the game that comprehend how the world works better than those spared from risk taking Ideally the
world should be run under a free market where everybody bets on their own money and resources however almost none of
the major decisions made today when to go to war when to financially bail out the banks are made by people who have
anything to lose in the game This is partly why Black Swan events have had special influence in the 20th and 21st centuries
