Pedagogical features include updated mini-cases to engage students and reinforce learning objectives, Ethical Dilemma and Global Connection boxes that simulate real-world challenges faced by salespeople and their managers, Role Play exercises that enable students to learn by doing, and updated discussion queries to drive classroom discussion and help students connect important concepts. [Rethinking the Sales Force: Redefining Selling to Create and Capture Customer Value](#) John DeVincentis, Neil Rackham, 1999-02-05. In today's markets, success no longer depends on communicating the value of products or services. It rests on the crucial ability to create value for customers. Sales forces need to retool current strategies by recognizing the customer's dominant power in today's economy and what that means for those who sell. Capitalizing on research into the practices of cutting-edge companies, the authors show how the successful sales force breaks away from traditional thinking and transforms themselves into complex business processes with multiple sales approaches and selling models that meet the demands of today's sophisticated customers.
