Manga Metamorphosis Kozumi Shinozawa,2008 Stories of the rise of the early Christian church in manga style

Spaces Between Nina Eckhoff-Heindl,Véronique Sina,2020-07-16 The contributions gathered in this volume exhibit a great variety of interdisciplinary perspectives on and theoretical approaches to the notion of spaces between They draw our attention to the nexus between the medium of comics and the categories of difference as well as identity such as gender disability age and ethnicity in order to open and intensify an interdisciplinary conversation between comics studies and intersectional identity studies

Capture Japan Marco Bohr,2022-12-01 Capture Japan investigates the formation of visual tropes and how these have contributed to perceptions of Japan in the global imagination The book proposes that images are not incidental in the formation of such perceptions but central to notions about identity history and memory From a tentative western ally in 1952 to a soft power superpower with a huge global influence in the 21st century the book locates questions about Japan in the global imagination to the country's transforming geopolitical position By adopting an interdisciplinary approach with a multiplicity of perspectives from around the world Capture Japan goes beyond binarisms to uncover how images can also produce discourses that challenge subvert or even contradict each other The word capture in the title of the book recognises both the deeply problematic role that images have played in relation to colonialism as well as the potential dominance that visual spectacles can wield in a contemporary context Diverse essays from a wide range of perspectives investigate the institutional framework that has allowed certain types of images of Japan to be promoted while others have been suppressed In doing so the book points to a vast network of images that have shaped the perception of Japan both from within and from outside revealing how these images are inextricably linked to wider ideological political cultural or economic agendas
