A Bibliography of Firework Books Chris Philip,1985 Over 600 entries representing more than 250 authors **The Palsgraf Case** William H. Manz,2005 This book tells for the first time the full story of Palsgraf v Long Island Railroad the most famous negligence case in American legal history The book is not another doctrinal discussion but instead views the case as a historical event one in which the lives of ordinary people intersected with the legal theorizing of a scholar judge Drawing on archival materials contemporary newspaper articles electronic databases and personal interviews the author covers the famous case from the fateful accident at the Long Island Railroad s East New York station to the rejection of Mrs Palsgraf s motion for reargument Included are in depth profiles of the Palsgrafs the Long Island Railroad the attorneys and all thirteen judges who heard the case Also covered are all the major controversies surrounding Palsgraf such as scope of the factual inaccuracies in Cardozo s majority opinion his alleged insensitivity to women and the poor the actual level of the railroad s negligence the validity of Mrs Palsgraf s alleged injuries the legal strategies pursued by opposing counsel and whether the case can be viewed merely as a contest between a rich corporation and a poor working class plaintiff The book also tells the story of the American legal profession at a critical time of its development It discusses the impact of the growing diversity of the bar controversies over changes in legal education debates over the value of the jury system the influence of politics on judicial selection abuses by negligence attorneys and ongoing court congestion The book s value lies in providing a myriad of detail and in placing the case within its historic context both of which are essential for a full understanding of Palsgraf It is recommended as supplemental reading for basic or advanced torts classes and in courses on American legal history *Dissolution Processes* Gary L. Silver,1976 Canadian Society of Forensic Science journal ,1998

Chemistry and Industry ,1999 **Dod's Parliamentary Companion** ,2009 *Pyrotechnics* Joseph Howard McLain,1980 National Union Catalog ,1978 Includes entries for maps and atlases Introduction to the Technology of Explosives Paul W. Cooper,Stanley R. Kurowski,1996 Introduction to the Technology of Explosives Paul W Cooper and Stanley R Kurowski Introduction to the Technology of Explosives is a clear and concise survey of the technologies and physical processes involved in explosive phenomena The book is intended to provide the worker new to the field with sufficient background to understand problems that may arise and to interact intelligently with specialists in the field The book covers the fundamentals of the chemistry of explosives the mechanics of burning sound shock and detonation initiation and initiators scaling in design and analysis and off the shelf explosive devices It provides the basic calculational skills needed to solve simple first order engineering design problems and emphasizes the crucial importance of safety considerations The book contains a broad range of data on explosive materials and their properties and behavior along with extensive lists of useful references Example problems with solutions are provided in each technical area as are descriptions and analysis of a wide variety of explosive devices The book concludes with a thorough and comprehensive description of

regulatory requirements for the classification transportation and storage of explosives and an extensive guide to explosives safety in plant and test facilities This book will be of interest to explosives technicians and engineers government regulators crime and accident scene investigators and instructors in military police and FBI bomb schools
