**Factors Impacting Customer Relationship Performance in Social CRM** Mostafa Esmaili Shayan,Sahar Esmaili Shayan,2020-10-20 Research Paper undergraduate from the year 2020 in the subject Communications Public Relations Advertising Marketing Social Media grade A course Customer Relationship Performance in Social CRM language English abstract Customer relationship performance results from the successful implementation of CRM which leads to effective and efficient marketing activities gaining a competitive advantage customer loyalty and ultimately company performance This study examined customer relationship orientation and CRM capabilities and value creation methods in social networks on customer relationship performance We used a structured questionnaire to measure the research variables and the statistical population was the Saipa company's managers in 2020 A structural equation modeling based on linear regression calculation between different variables is used to investigate the relationship between the hypotheses The study results indicate a

significant effect of customer relationship orientation value creation methods use of social media and social information processing on customer relationship performance Also customer relationship performance has a significant effect on company performance while CRM and customer relationship orientation s social capabilities do not

**Strategies and systematic implementation of innovation management for sustainable business success** Dennis Maurer,2016-08-16 Seminar paper from the year 2016 in the subject Business economics Business Management Corporate Governance grade 1 0 EBC University D sseldorf language English abstract Forming new businesses entering new markets and increasing organizational effectiveness occurs through the innovation and transformation processes Corporations must be able to adapt and evolve if they wish to survive The ability to innovate is a source of sustainable competitive advantage However how is it possible for a company to breed innovation into the very bones of an organization so that it becomes an ongoing managed phenomenon Is innovative thinking independent of external circumstances Or is there any method to its creativity And what would an innovation model look like The importance of innovation in regards to a businesses value is without a doubt the most meaningful and perhaps most essential aspect of a company Innovation pays dividends for shareholders it drives growth and differentiation motivates employees opens new markets and captures customers attention all while using much lower advertising budgets One company that has clearly done something right in the past is Google This company is a symbol for integrative IT infrastructures and restructuring business architecture through experimentation improvisation analytical decision making participative product development and other noteworthy modes of innovation It uses an evaluation of ideas with an admittedly chaotic ideation process and a set of accurate data driven methods Google s culture fascinates even the brightest technical expertise It has developed or acquired an array of new offerings to augment the core search product Its expansion profitability and shareholder equity are at unmatched levels It has been the designer or a leading exponent of new paths to business and management innovation These are the main reasons why Google is a great allegory of innovation and a profound example of a successful integrated innovation management approach The purpose of this essay based on Adapa Srinivasa Rao s case study Corporate Entrepreneurship and Innovation at Google Inc is to build a bridge between the company s methods and the theoretical framework that abstractly enables and drives innovation in the corporate environment
