Prep Ideas For Beginners and Dummies Barbara Dawson, 2020-08-18 Meal prepping is meal prepping a meal or recipe then portioning it out to grab and go meals for later If you've ever kept your leftovers from dinner to take with you for lunch then next time you've had mini meal prepped Get it though meal prepping refers to preparing 3-7 days worth of food at a time Think of it like keeping your lunches for the week all at once instead of keeping your lunch hanging You can use this same technique for breakfast lunch dinner and snacks Meal prepping isn't necessarily a waste and reduces time to take outside your home whether the plan is a diet or a budget When keeping your meal day after day the question is how long will you be able to eat homemade meals without having to do it every day Meal prepping is not for everyone It is good for those who value convenience and for more than one person With meal prepping you can all eat the same thing for a few days in a row so if you don't like leftovers or get bored with food meal prepping isn't for you If having nutritious food that's maximizing your time and budget is more valuable to you than doing something different every day meal prepping is what you're looking for I've generally not seen meal prepping for one person or maybe one other person do a whole meal Meal prepping for a whole family would be quite difficult but the result would be a meal that isn't as fresh as food is stored in the refrigerator for a long time in a slow cooker In addition to the way food is packed the individual nuances of your refrigerator can impact the quality of your refrigerated meal So the level of acceptability of the texture and flavor will be subjective to the eater Always begin with the refrigerator guidelines but the FDA and then evaluate them against your own preferences In g
