Overcoming questions about his size and skills as a quarterback, Lucas persevered and went on to play seven seasons in the NFL. His professional football career, however, came to a sudden end at age 30 when a neck injury caused him to collapse on the sideline during training camp. Instructed by NFL doctors that surgery wasn't an option, Lucas turned to painkillers for relief, but as his tolerance for medication escalated and his NFL insurance coverage expired, he began to plan his suicide. Just days before he planned to take his life, Lucas was put in touch with a group of doctors who agreed to perform neck surgery free of charge. In this tell-all, Lucas shares how, in a league without guaranteed contracts and careers that average just a few seasons long, players in the training room are perceived to lack the toughness necessary to succeed on the field. He discusses how this prevailing attitude leads to widespread abuse of painkillers and leaves many former players unable to lead a normal life once their playing career ends, while also sharing details on how he overcame his drug addiction and turned his own life around.

Workplace Bullying and Mobbing in the United States Maureen Duffy, David C. Yamada, 2018-01-04 Offering multidisciplinary research and analysis on workplace bullying and mobbing, this two-volume set explores the prevalence of these behaviors in sectors ranging from K-12 education to corporate environments and exposes their effects on both individuals and organizations. *Workplace Bullying and Mobbing in the United States* provides a comprehensive overview of the nature and scope of the problem of workplace bullying and mobbing. By tapping the knowledge of a breadth of subject experts and interpreting contemporary survey data, this resource examines the impact of bullying and mobbing on targets, identifies what constitutes effective prevention and intervention, surveys the legal landscape for addressing the problem from both American and for multinational employers' transnational perspectives, and provides an analysis of key employment sectors with practical recommendations for prevention and amelioration of these behaviors. The contributors to this outstanding work include researchers, practitioners, and policy and subject matter experts who are widely recognized as authorities on workplace bullying and mobbing, including Drs. Gary and Ruth Namie, cofounders of the U.S. workplace anti-bullying movement; Drs. Maureen Duffy and Len Sperry, internationally recognized authorities on workplace mobbing; and professor David Yamada, leading expert on the legal aspects of workplace bullying. The set's content will be of particular value to scholars and practitioners in disciplines that overlap with American labor and employee relations, industrial/organizational psychology, and mental health and law and conflict resolution.
