Rogue Astronaut Mitchell Jacobs, 2026-03-16 At the core of *Rogue Astronaut* Mitchell Jacobs's debut poetry collection is a mystery Was the poet's father abducted by aliens as a teenager From this uncanny family lore spins a gravitational field of theory grief and imagination spurring speculations about the extraterrestrial as well as the terrestrial question of familial bonds What are the limits of understanding between two alien anatomies between two unlike minds Are we after all finally alone In poems that continually veer from play to reverence from body horror to bodily delight encounters with bed bugs and cuttlefish appear side by side with retro gaming and phantom light A brother living with delusions turns toward the sky The poet also peers skyward in search of connection across family lines across the body's borders across galaxies Outer space becomes a metaphorical terrain where queer desire and spiritual longing collide Just as Agent Mulder's iconic X-Files poster declares I WANT TO BELIEVE so do these poems ache to trust in something more extraterrestrial life divine presence intimacy Jacobs's electrifying collection offers readers a singular voice attuned to the strangeness of living now where science fiction and memory tenderness and dissociation belief and doubt pulse in tangled orbit With wit vision and formal inventiveness *Rogue Astronaut* charts a course through the mysterious and the intimate inviting us to imagine new ways of connecting across distance time and the alien terrain of self
