and exist in our everyday world But how and why does black magic affect us The Holy Qu ran continually mentions that
humans are not the only intelligent beings on Earth or in the universe Other beings do exist These include Jinn invisible
beings that share the human qualities of intelligence and free will But Jinn are created from fire These beings if good leave
humans alone and live for the pursuit of happiness But when Jinn turn to the dark side they can affect humans in very

Ph D explains why thoughts of a democratic Arab Muslim nation are nothing but fantasy Arab people are characterized by
obedience to a hierarchical authority Syrian born Elhadj states Western style democracy can never fill this cultural mandate
Elhadj explains how Muslim Arab political and religious leaders raise the tenets of Islam in a shield against democracy in
order to protect their power Constant preaching by Islam s religious leaders instructing Muslims to blindly obey their leaders
has created an attitude of political quietism in regard to the tyranny of Arab rulers and ambivalence towards democracy
Elhadj says in his book Using Syria and Saudi Arabia as the archetypal Arab governments The Islamic Shield outlines the
numerous reasons why genuine democratic reforms are not likely to emerge in Arab countries for a very long time Instead
Elhadj proposes that a benevolent dictatorship may be a more hopeful and realistic expectation especially since democratic
elections are likely to result in the election of a theocratic dictator rather than a secular democratic one A benevolent
dictatorship would fulfill the goal of reducing Arab rulers cruelty which fans the flame of Islamic extremism and Jihadism he
states Jihadism and its causes are examined in detail by Elhadj He makes the case that Jihadist terrorism is fueled by the
oppression and frustration of the Arab masses that results not only from tyrannical Arab rule but also from the perception of
biased American policies in the Middle East Combined with the growing influence from extremist factions within Islam these
oppressions form a vicious cycle of violent confrontation Elhadj says Islamist extremism alone does not cause terrorism
Elhadj states What Islamist extremism does is to turn political frustrations into religious crusades The United States may
even have created a set back for themselves in the effort to democratize the Middle East Elhadj says As the United States
deposed the Arab World s most secular regime in Iraq a theocratic leadership aligned to Tehran emerged with potentially far
