**The Common Core Approach to Building Literacy in Boys** Liz Knowles, Martha Smith, 2014-05-27 Written with a focus on the English Language Arts Common Core Standards, this book provides a complete plan for developing a literacy program that focuses on boys pre-K through grade 12. Despite the fact that reading and literacy among boys has been an area of concern for years, this issue remains unresolved today. Additionally, the emphasis and focus have changed due to the implementation of the English Language Arts Common Core Standards. How can educators best encourage male students to read, and what new technologies and techniques can serve this objective? *The Common Core Approach to Building Literacy in Boys* is an essential resource and reference for teachers, librarians, and parents seeking to encourage reading in boys from preschool to 12th grade. Providing a wide array of useful, up-to-date information that emphasizes the English Language Arts Common Core Standards, the bibliographies and descriptions of effective strategies in this book will enable you to boost reading interest and performance in boys. The chapters cover 16 different topics of interest to boys, all accompanied by a complete bibliography for each subject area: discussion questions, writing connections, and annotated new and classic nonfiction titles. Information on specific magazines, annotated professional titles, books made into film, websites, and apps that will help you get boys interested in reading is also included.

**Food Places in Children's Literature** Sabine Planka, 2025-12-19 *Food Places in Children's Literature* analyses how food, place, and social interactions are intertwined in children's and young adult novels. This book sets out to analyse a range of children's books from across the 20th and 21st centuries, each of which relate to specific kinds of places: from the kitchen to the restaurant to the ad hoc picnic place. By using selected spatial theories but also considering, for example, theories of communication, Examining how food is an object of material culture and shapes identities in a way similar to places, the book explores what happens when food and place meet and become intertwined within children's narratives. This book is for scholars, academics, and postgraduate students in the arts and humanities, with a special focus on children's literature and media literature, film, and media studies, as well as academics and students with a special interest in food studies.
