The Implementation of Inclusive Education in Beijing Kai Yu, 2014-02-27 The education implementation process in China remains uncharted by researchers The Implementation of Inclusive Education in Beijing Exorcizing the Haunting Specter of Meritocracy puts forth a general theory on China's education programs encompassing policy processes actions and interactions and grounded on the views of street level bureaucrats in China Kai Yu investigates these processes and presents teachers reflections on the change process as well as implementation stories from four Beijing schools He reports on their attitudes their beliefs and their pedagogical practices for implementing the innovative education program Yu argues that the imperatives of meritocratic ideology have undermined the detracking policy and its practice The strength of a program of change rests not so much on the power of the ideas purposes and values as on the reinterpretation of the implementers based on their personal understandings of institution and practice

Education for All Robert E. Slavin, 1996-01-01 This work is a collection of previously published articles by Robert Slavin The articles trace the evolution over a quarter century of the powerful idea that given well developed rigorously evaluated methods and materials teachers can succeed with virtually all children

Bottom Set Citizen Paula Ambrossi, 2024-03-19 While research evidence shows the negative impact of ability grouping on children this book suggests that the reason the practice is still embraced is the unspoken allegiance to the values of empire that governments schools and many parents still uphold promoting competition and hierarchies over and above ethical principles on the education of society's most vulnerable our children The practice which happens across social class humiliates children deemed less academically able by rounding them up in front and in opposition to their better intellectual peers Wielding knowledge as a weapon of humiliation warps children's relationship to organized forms of knowledge making them antagonistic or indifferent towards it This book responds to Michael Young's *The Rise of the Meritocracy* by focusing on the plight of those who are educationally placed in opposition to the intellectual elites

the bottom set citizen rich or poor and ready to vote This book will appeal to anyone concerned with democracy and children's rights in education including the rich on whom I shine the light of deficit for a change Thus Donald Trump and Nigel Farage exemplify the bottom set citizen in all his facilitated glory Other more vulnerable BSCs are not as lucky **Library of**
