## ***2.0 Executive Summary***

### **2.1 The Purpose of the Plan**

This document outlines a proposed microcomputer consulting service and will help in identifying requirements for starting and operating the business outlined here. In order to do this, the report will review the market or markets that might exist, determine what competition exists in those markets and identify the skills and equipment needed. Financial performance is projected and funding requirements are considered.

The information contained in this report will serve two main purposes: to determine the viability of the proposed business and to measure its ongoing operations.

### **2.2 The Company**

#### **Market Needs to be Met**

Accounting Management Systems (AMS) will provide consulting services to small and medium sized businesses to assist in selecting and implementing available microcomputer accounting systems.

They simply want a solution that will meet their needs, works when it is supposed to, and is cost effective to implement.

#### **Competitive Advantages**

Accounting Management Systems will offer four and a half years of experience in the selecting and implementation of off-the-shelf micro-computer accounting programs. Other specific advantages include:

- Experience with proven microcomputer equipment and software.
- An existing network of contacts among resellers and other consultants.
- Formal training and practical experience in business management and operations.
