Hennes Weisweiler Academy Coaching Technical Development:

The Routledge Handbook of Coach Development in Sport Steven B. Rynne, Clifford J. Mallett, 2024-05-24 The Routledge Handbook of Coach Development in Sport is a comprehensive text that underscores the importance of learning and context for those who sculpt the environment in which people of all ages develop in and through sport Coaches and those responsible for the development of coaches are best positioned as both learners and facilitators of learning As sport becomes more globalised the concomitant professionalisation of coaches necessitates ongoing learning and development to embrace new knowledge and understanding Moreover contemporary coach development presents as a wicked problem in that it continues to evolve it is contextually bound and there is no single or obvious way to approach it Problematically there is often limited assistance available to support coaches and coach developers in their ongoing development As such this book provides a truly international reference point that brings together leading scholars and practitioners from across the globe to provide an overview of the theories and practices of coaches and coach developers that are impacting the quality of sporting environments Therefore this book is an important reference for researchers scholars and practitioners alike in the fields of Sport Coaching Coach Development Sport Development Sport for Development Physical Education and related disciplines

Performance Psychology Markus Raab, Babett Lobinger, Sven Hoffmann, Alexandra Pizzera, Sylvain Laborde, 2015-09-24 This book integrates findings from across domains in performance psychology to focus on core research on what influences peak and non peak performance The book explores basic and applied research identifying cognition action interactions perception cognition interactions emotion cognition interactions and perception action interactions The book explores performance in sports music and the arts both for individuals and teams groups looking at the influence of cognition perception personality motivation and drive attention stress coaching and age This comprehensive work includes contributions from the US UK Canada Germany and Australia Integrates research findings found across domains in performance psychology Includes research from sports music the arts and other applied settings Identifies conflicts between cognition action perception and emotion Explores influences on both individual and group team performance Investigates what impacts peak performance and error production National Coaching Development Program - Coach's Manual Level 1: Theory (1978).
