Phonics Practice Update Setup:

Reading Randomised Controlled Trials Robert Savage, Amy Fox, Anneka Dawson, Helen Gray, Clare Huxley, 2025-03-03 In early 2021/22 the Flexible Phonics reading intervention a large scale randomised controlled trial took place in 118 schools in England and involved nearly 3 000 children This study aimed to provide valuable insights into the success of largely school based education trials The Flexible Phonics trial proved to be not only an important experiment in improving children s literacy but a case study in which the methodology of single randomised controlled trials in education can be considered Reading Randomised Controlled Trials investigates the complexities of conducting randomised controlled trials in the field of education and how they can be seen as a cultural activity The book emphasises the human operations decision making and actions that drive such trials which are often overlooked in published reports Through the case study of Flexible Phonics the book highlights the key differences between scaled educational trials and other types of trials such as pharmaceutical trials The additional focus on early childhood literacy is of significant educational importance particularly in the context of UK school partial closures in 2020 and 2021 during the Covid 19 pandemic Reading Randomised Controlled Trials is ultimately a unique resource on the implementation of randomised controlled trials in authentic school contexts and for the sustained improvement of practice in education

discover what each child knows and can do in order to build on that child's prior knowledge 3 The authors stress that assessment cannot be separated from good teaching and they describe strategies that teachers can use to understand children's language and literacy knowledge in the context of specific learning and teaching events while also focusing on today's increasingly important accountability function of assessment and standardized testing instruments 4 The authors acknowledge the importance of the family in young children's language and literacy development and include descriptions of how early childhood teachers can connect with families and engage caregivers in their children's school or center
