Harnessing AI-Generated Content in Language Education Dehghan, Farzaneh, 2026-03-04 Artificial Intelligence (AI) transforms the landscape of language education, offering new opportunities to enhance teaching and learning experiences. One of the most impactful developments is the use of AI-generated content like dialogues, essays, assignments, and personalized feedback created by intelligent systems. By harnessing this technology, educators can provide learners with adaptable, engaging, and contextual resources catered to diverse learning styles and proficiency levels. This integration streamlines content creation while creating paths for interactive and immersive language learning, reshaping traditional pedagogical approaches in the digital age. *Harnessing AI-Generated Content in Language Education* explores the use of AI-generated content in different aspects of foreign language education. It examines emerging research and theoretical advances in the areas of foreign language teaching materials development and professional development. This book covers topics such as educational technology, curriculum development, and higher education and is a useful resource for educators, engineers, academicians, researchers, and scientists.

Integrated English: Gateways: 2: Teacher's Book Irene Frankel, 1997-10-30 Core vocabulary is explicitly presented, practiced, and applied so beginners can start communicating immediately. A logical, carefully structured grammar syllabus provides a firm foundation for communicative exchanges. Task-based pair and small group activities give maximum practice and ample opportunities for personalization. Realistic task-based speaking, listening, reading, and writing activities reinforce grammar and vocabulary. High interest, cross-cultural topics provide a context for meaningful language learning. Conversation management strategies in each unit give students the tools

Proceedings of the 5th International Conference on AI Research Renata Paola Dameri, The International Conference on AI Research ICAIR is becoming a key forum for academics and students whether social scientists, natural scientists or philosophers come together to explore the future of society in the context of AI. Many aspects of AI are now the subject of peer reviewed academic research including the increasing use of Chatbots and GenAI in academe and in society at large. The conference was initially launched in 2019 as the European Conference on Artificial Intelligence and Robotics. After a success inaugural event in Oxford the conference fell victim to Covid and the following three years were held online. Time was taken in 2023 to refocus this fast developing area of research and the name of the conference was changed this year to the International Conference on Artificial Intelligence. The Proceedings of the 2025 edition of the conference include academic research papers, PhD research papers, Masters Research papers and work in progress papers all of which have been presented and discussed at the ICAIR 2025 conference. The proceedings are of an academic level appropriate to a professional research audience including graduates, postgraduations, doctoral and post doctoral researchers. All papers have been double blind peer reviewed by members of the Review Committee.
